FPB365
FP-UPDATE SPECIALS FILE WITH FIRE PROTECTION CHARGES

PROGRAM FUNCTION:

This program will update the Specials File with the Fire Protection (FP) charges from Department of Lands when prompt #01 is answered 'Yes'. If prompt #01 is answered 'No', no updates are performed and only a listing is provided.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

01   Do you want to update the Specials File? (Yes or No)
02   Enter the batch number (XXX) for the Dept. of Lands Fire Protection update.

COMMENTS:

The charge is put in the Specials File as a special code #991/961.

If a batch number is not entered, the program will default to a batch number of 365. The batch number must be numeric.

OUTPUT SUMMARY (or NA):

A detail list is provided of all fire records that do not have a Parcel Master or a Specials record. Totals of acres and charge are provided for records that do not have a Parcel Master, a Specials record, and totals for updates made. The count of the records updated is provided.

SPECIAL CONSIDERATIONS:

The procedure runs FPB368, which clears the Specials File of Fire Protection charges from previous cycles.

Special Code 991 = Fire charge

Special Code 961 = FPA
