

## Idaho Specific Changes to Motor Fuels Schema

### BinaryAttachment

- Element name changed from DocumentType to DocumentTypeCd
- Element name changed from Description to Desc
- Element name changed from AttachmentLocation to AttachmentLocationTxt
  - This element changed to a simpleType with base of Text type and max length of 64

### eFileTypes

- Documentation node changes for TaxYear = 2019 and ReleaseDate = June 13, 2019
- The attribute name documentCount name changed to documentCnt in the ReturnDataAttributes attribute group
- Attribute name change from softwareVersion to softwareVersionNum in the DocumentAttributes node
- Base change from gYearMonth to StringType in the YearMonthType node along with the pattern value change to [1-9][0-9]{3}-((0[1-9])|(1[0-2]))
- New node TaxYearEndMonthDtType added with base type of TextType and a pattern value of [0-9][0-9](01|02|03|04|05|06|07|08|09|10|11|12)
- Base changed from gMonth to StringType in the MonthType node with a pattern value of --((0[1-9])|(1[0-2]))
- Base for MonthDayType to StringType with the following pattern values
  - --((0[1-9])|(1[0-2]))--((0[1-9])|(12|[0-9]))
  - --((0[13-9])|(1[0-2]))-30
  - --((0[13578])|(1[02]))-31
- Base for QuarterEndDateType changed to StringType
- Base for YearType changed to StringType with a pattern of [1-9][0-9]{3}
- In the IntegerType, IntegerNNTYPE, IntegerPosType, DecimalType, and DecimalNNTYPE nodes the totalDigits of value 25 added
- Node added named USAmountNonPosType with restriction of xsd:nonPositiveInteger and totalDigits value of 15
- Node added named Decimal2RatioType with a restriction of xsd:decimal and totalDigits of value 3, fractionDigits of value 2, minInclusive value of 0.00 and maxInclusive value of 1.00
- Node added named Decimal4RatioType with a restriction of xsd:decimal and totalDigits of value 5, fractionDigits of value 4, minInclusive value of 0.00 and maxInclusive value of 1.00
- Node added named SmallRatioType with a restriction of xsd:decimal and totalDigits of value 4, fractionDigits of value 4, minInclusive value of 0.0000 and maxInclusive value of .9999
- Enumeration value of IRSAgent removed from the OriginatorType node
- SoftwareVersionType node restriction base changed to TextType
- In the FUTASTateCdType node the state names were added to all elements documenting the long name of the state

## State Tax Commission

- In the EmailAddressType node the documentation changed from “Used for an email address” to “Used for an email address. Symbol @ follows and is followed by at least one of the characters allowed by TextType - up to 75 characters in total.” And the base changed from string to TextType and pattern added .+@.+
- SimpleType TextType pattern value ([&#x0021;-&#x007E;&#x00A3;&#x00A7;&#xC1;&#xC9;&#xCD;&#xD1;&#xD3;&#xD7;&#xDA;&#xD C;&#xE1;&#xE9;&#xED;&#xF1;&#xF3;&#xFA;&#xFC;] ?)\*[&#x0021;-&#x007E;&#x00A3;&#x00A7;&#xC1;&#xC9;&#xCD;&#xD1;&#xD3;&#xD7;&#xDA;&#xD C;&#xE1;&#xE9;&#xED;&#xF1;&#xF3;&#xFA;&#xFC;]
- Enumeration removed in CountryType with the value “MF” “Mayotte”
- Enumeration added in CountryType for value “OD” “South Sudan”
- In the USItemizedEntryType node the element name changed from Description to Desc and the Amount element changed from Amount to Amt
- In the ForeignItemizedEntryType node the element name changed from Description to Desc and the Amount element changed from Amount to ForeignAmt
- The node name for DepreciationConventionType changed name to DepreciationConventionCodeType
- New node added called DepreciationConventionCodeType with the enumerations previously in DepreciationConventionType
- The node DepreciationConventionType changed to use the base DepreciationConventionCodeType
- New node DepreciationMethodCodeType added with the enumerations previously in DepreciationMethodType
- The node DepreciationMethodType changed to use the base DepreciationMethodCodeType
- The element AddressLine1 in the USAddressType and OtherUSAddressType were renamed to AddressLine1Txt
- The element AddressLine2 in the USAddressType and OtherUSAddressType were renamed to AddressLine2Txt
- The element City in the USAddressType and OtherUSAddressType were renamed to CityNm
- The element State in the USAddressType and OtherUSAddressType were renamed to StateAbbreviationCd
- The element ZIPCode in the USAddressType and OtherUSAddressType were renamed to ZIPCd
- The element AddressLine1 in the ForeignAddressType and OtherForeignAddressType were renamed to AddressLine1Txt
- The element AddressLine2 in the ForeignAddressType and OtherForeignAddressType were renamed to AddressLine2Txt
- The element City in the ForeignAddressType and OtherForeignAddressType were renamed to CityNm and the base changed to StringType with pattern value="([A-Za-z] ?)\*[A-Za-z]"
- The element ProvinceOrState name in the ForeignAddressType and OtherForeignAddressType were changed to ProvinceOrStateNm and restricted to max length of 17
- The element Country in the ForeignAddressType and OtherForeignAddressType names changed to CountryCd

## State Tax Commission

- The element PostalCode in the ForeignAddressType and OtherForeignAddressType names changed to ForeignPostalCd and restricted to max length of 16
- The element BusinessNameLine1 in the BusinessNameType changed to BusinessNameLine1Txt
- The element BusinessNameLine2 in the BusinessNameType changed to BusinessNameLine2Txt
- In the NameAndAddressType node the PersonName element renamed PersonNm
- In the NameAndAddressType node the AddressInUS changed to USAddress
- In the NameAndAddressType node the AddressInForeign changed to ForeignAddress
- In the node BINType the restriction base changed to TextType from StringType
- Max Length for AlphaNumericType added with a value of 150
- Max Length for AlphaNumericAndParenthesesType added with a value of 250
- New Node MilesNNType added of IntegerNNType with Total Digits set to 12
- New enumerations added to GovernmentCodeType for the following
  - CNCT Cincinnati,
  - COCT Columbus,
  - DECT Detroit,
  - KACT Kansas City,
  - LECT Louisville,
  - LXCT Lexington,
  - OCCT Ohio Central Collection Agency,
  - ORCT Ohio Regional Income Tax Agency,
  - SLCT ST Louis,
  - TOCT Toledo,
  - PHCT Philadelphia
- Annotation changed in VINType to Type for Vehicle Identification No. - 1 to 17 or 19 alphanumeric characters with pattern changes
  - [A-Z0-9]{1,17}
  - [A-Z0-9]{19}
- In the node PersonFullNameType the element PersonFirstName changed to PersonFirstNM and PersonLastName changed to PersonLastNm
- Pattern change for IPv6Type to [0-9A-F:]{1,39}
- In IPAddressType the element IPv4Address changed to IPv4AddressTxt and IPv6Address changed to IPv6AddressTxt
- VehicleDescriptionType renamed to VehicleDescriptionGrpType with the following elements changed
  - VehicleYear changed to VehicleModelYr
  - VehicleMake changed to VehicleMakeNameTxt
  - VehicleModes changed to VehicleModelNameTxt
- In the ForeignEntityIdentificationGrpType node the element ForeignEntityReferenceIdNumber was renamed to ForeignEntityReferenceIdNum and minLength of 1 added
- New node DeviceIdType of TextType and pattern [A-F0-9]{40}
- New node ForeignRegulatedInvestmtCompCdType of StringType and enumeration of RIC
- New node SubmissionIdType of xsd:string and pattern [0-9]{13}[a-z0-9]{7}
- New node FTINType of TextType and maxLength of 50

## ReturnHeader

- Under elementFormDefault added annotation added documentation added:
  - Description “e-file Return Header”
  - ReleaseDate December 6, 2012
- In element Jurisdiction added type GovernmentCodeType, change documentation to “IRS 4 character abbreviation code” and removed simpleType with base sting and minLength 2 and maxLength 3
- Element Timestamp name changed to ReturnTs
- Element TaxPeriodBeginDate name changed to TaxPeriodBeginDt
- Element TaxPeriodEndDate name changed to TaxPeriodEndDt
- Element TaxYear name changed to TaxYr
- Element DisasterRelief name changed to DisasterReliefTxt
- Element ISPNumber name change to ISPNum
- Element PaidPreparedInformation name changed to PaidPreparedInformationGrp  
Elements under PaidPreparedInformationGrp that changed:
  - Element DateSigned name changed to SignatureDt
  - Element SelfEmployed name changed to SelfEmployedInd
  - Element SSN name changed to PreparerSSN and moved to the bottom of the choice list
  - Element PreparerFirmIDNumber name changed to PreparerFirmEIN
  - Element MissingEINReason name changed to MissingEINReasonCd
  - Element PreparerBusinessName name changed to PreparerFirmName
  - Element PreparerPersonName name changed to PreparerPersonNM
  - Element Phone name changed to PhoneNum
  - Element ForeignPhone name changed to ForeignPhoneNum
  - Element EmailAddress name changed to EmailAddressTxt
- Element Originator name changed to OriginatorGrp
  - Element PractitionerPIN name changed to PractitionerPINGrp and Documentation changed to Needed if state supports Practitioner PIN under OriginatorGrp
- Element SoftwareVersion name changed to SoftwareVersionNum
- Removed element InternetProtocol
- Element PrimaryPINEnteredBy name changed to PrimaryPINEnteredByCd under SignatureOption
- Element SecondaryPINEnteredBy name changed to SecondaryPINEnteredByCd under SignatureOption
- Removed element OriginalSubmissionId
- Removed element OriginalSubmissionDate
- Element binaryAttachmentCount name changed to binaryAttachmentCnt

## StateFileTypes

- Removed element SubmissionType
- Element AddressLine1 name changed to AddressLine1Txt under USAddress and ForeignAddress
- Element AddressLine2 name changed to AddressLine2Txt under USAddress and ForeignAddress
- Element City name changed to CityNm under USAddress and ForeignAddress
- Element State name changed to StateAbbreviationCd under USAddress

## State Tax Commission

- Element ZIPCode name changed to ZIPCd under USAddress under USAddress
- Element InCareOfName name changed to InCareOfNm under USAddress
- Element ProvinceOrState name changed to ProvinceOrStateNm under ForeignAddress
- Element Country name changed to CountryCd under ForeignAddress
- Element PostalCode name changed to ForeignPostalCd under ForeignAddress
- Element InCareOfName name changed to InCareOfNm under ForeignAddress
- Element IPAddress type changed to IPAddressType under InternetProtocolType
- Added complexType StateLocalTaxGrpType with Description "State Tax Group"
  - Added element StateTaxWithheldAmt with type USAmountType and minOccurs 0 and Description "State Tax Withheld amount" under StateLocalTaxGrpType
  - Added element State StateAbbreviationCd with type StateType and Description "State abbreviation code" under StateLocalTaxGrpType
  - Added element PayerStateIdNumber with minOccurs 0 and Description "Payer state I.D. number" with a restriction base TextType and a maxLength value 16
  - Added StateDistributionAmt with type USAmountType and minOccurs 0 with Description "State distribution amount" under StateLocalTaxGrpType
  - Added element StateLocalTaxGrp with minOccurs 0 and Description "State distribution amount" under StateLocalTaxGrpType
    - Added element LocalTaxWithheldAmt with type USAmountType, minOccurs 0 and Description "Local tax withheld amount" under StateLocalTaxGrp
    - Added element NameOfLocality with type ShortDescriptionType and Description "Name of locality" under StateLocalTaxGrp
    - Added element LocalDistributionAmt with type USAmountType, minOccurs 0 and Description "Local distribution amount" under StateLocalTaxGrp

### TransmissionHeader

- Element Jurisdiction type changed from StringType to String50Type under TransmissionHeaderType

### MFCarrierReport

- Element MFCarrierScheduleCode name changed to MFCarrierScheduleCodeType under CarrierScheduleType
- Element MFProductionCode name changed to MFProductionCodeType under CarrierScheduleType
- Element MFModCode name changed to MFModeCodeType under CarrierScheduleType
- Element Address type changed from AddressType to MFAddressType under DeliveredTo

### MFDistributorReport

- Element ScheduleCode type changed from MFDistributorScheduleCode to MFDistributorScheduleCodeType under DistributorScheduleType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under DistributorScheduleType
- Element Mode type changed from MFModeCode to MFModeCodeType under DistributorScheduleType
- Element DocumentNumber added minOccurs 0 under DistributorScheduleType
- Element ReceivedShippedDate added minOccurs 0 under DistributorScheduleType
- Element Origin added minOccurs 0 under DistributorScheduleType
- Element Destination added minOccurs 0 under DistributorScheduleType

## State Tax Commission

- Added or Uncommented RevisedDestination with type MFLocationType and minOccurs 0 under DistributorScheduleType
- Element Gross added minOccurs 0 under DistributorScheduleType
- Added or Uncommented DiversionNumber with type MFDiversionNumberType and minOccurs 0 under DistributorScheduleType
- Added Element Value with type MFAmountType and minOccurs 0 under DistributorScheduleType

### MFRetailerReport

- Element RetailerReportDetails type changed from RetailerReportDetailType to MFRetailerReportDetailType under MFReportType
- Element ScheduleCode type changed from MFRetailerScheduleCode to MFRetailerScheduleCodeType under RetailerScheduleType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under RetailerScheduleType
- Element Mode type changed from MFModeCode to MFModeCodeType under RetailerScheduleType
- Added element Value with type MFAmountType and minOccurs 0 under RetailerScheduleType

### MFSupplierReport

- Element ScheduleCode type changed from MFSupplierScheduleCode to MFSupplierScheduleCodeType under SupplierScheduleType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under SupplierScheduleType
- Element Mode type changed from MFModeCode to MFModeCodeType under SupplierScheduleType
- Added element Value with type MFAmountType and minOccurs 0 under SupplierScheduleType
- Added element PurchaseDate with type DateType and minOccurs 0 under SupplierScheduleType
- Added element PurchaseTaxRate with type Dec999Type and minOccurs 0 under SupplierScheduleType

### MFTOReport

- Element TerminalReportDetails type changed from TerminalReportDetailType to MFTerminalReportDetailType under MFReportType
- Element ScheduleCode type changed from MFTOScheduleCode to MFTOScheduleCodeType under TerminalOperatorScheduleType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under TerminalOperatorScheduleType
- Element Mode type changed from MFModeCode to MFModeCodeType under TerminalOperatorScheduleType

### MFTransloaderOperatorReport [← New file](#)

- Include schemaLocation MotorFuelseFileTypes.xsd
- Added element TransloaderOperatorReport with type TransloaderOperatorReportType
- Added complexType TransloaderOperatorReportType
  - Added extension base MFReportType under TransloaderOperatorReportType

- Added element InventoryDate with type DateType and minOccurs 0 under MFReportType
- Added element TransloaderOperatorInventory with type TransloaderOperatorInventoryType, minOccurs 0, maxOccurs unbounded and documentation “Schedule of Summary Inventories” under MFReportType
- Added element TransloaderOperatorSchedule with type TransloaderOperatorScheduleType, minOccurs 0 and maxOccurs unbounded under MFReportType
- Added element TotalQuantityReported with type MFQuantityType, minOccurs 0 and documentation “Used as Check Value” under MFReportType
- Added element TaxOrFee with type MFTaxOrFeeType, minOccurs 0 and maxOccurs unbounded under MFReportType
- Added element TotalDue with type MFAmountType and minOccurs 0 under MFReportType
- Added complexType TransloaderOperatorInventoryType
  - Added element ScheduleCode with type MFTLScheduleCodeType under TransloaderOperatorInventoryType
  - Added element ProductCode with type MFProductCodeType under TransloaderOperatorInventoryType
  - Added element ReceivedShippedDate with type DateType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element Seller with type MFParticipantType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element Purchaser with type MFParticipantType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element BeginningInventory with type MFQuantityType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element Receipts with type MFQuantityType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element Disbursements with type MFQuantityType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element GainLoss with type MFQuantityType and minOccurs 0 under TransloaderOperatorInventoryType
  - Added element EndingInventory with type MFQuantityType and minOccurs 0 under TransloaderOperatorInventoryType
- Added complexType TransloaderOperatorScheduleType
  - Added element ScheduleCode with type MFTLScheduleCodeType under TransloaderOperatorScheduleType
  - Added element ProductCode with type MFProductCodeType under TransloaderOperatorScheduleType
  - Added element Mode with type MFModeCodeType under TransloaderOperatorScheduleType
  - Added element DocumentNumber with type MFDocumentNumberType and minOccurs 0 under TransloaderOperatorScheduleType

## State Tax Commission

- Added element RailcarDocumentNumber with type MFDocumentNumberType, minOccurs 0 and maxOccurs unbounded under TransloaderOperatorScheduleType
- Added element RailcarNumber with type MFDocumentNumberType, minOccurs 0 and maxOccurs unbounded under TransloaderOperatorScheduleType
- Added element ReceivedShippedDate with type DateType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Origin with type MFLocationType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Destination with type MFLocationType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Carrier with type MFParticipantType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Seller with type MFParticipantType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Purchaser with type MFParticipantType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Net with type MFQuantityType and minOccurs 0 under TransloaderOperatorScheduleType
- Added element Gross with type MFQuantityType and minOccurs 0 under TransloaderOperatorScheduleType

### MotorFuelseFileTypes

- SimpleType CountyType name changed to MFCountyType
- SimpleType CountyCodeType name changed to MFCountyCodeType
- SimpleType ProvinceType name changed to MFProvinceType
- SimpleType StateOnlyType name changed to MFStateOnlyType
- SimpleType MexicanStateType name changed to MFMexicanStateType
- SimpleType MexicanPostalCodeType name changed to MFMexicanPostalCodeType and pattern value changed to [0-9]{5}
- SimpleType OtherPostalCodeType name changed to MFOtherPostalCodeType
- SimpleType DepartmentType name changed to MFDepartmentType
- SimpleType FilerIDType name changed to MFFilerIDType
- SimpleType String9Type name changed to MFString9Type
- SimpleType CanadianBusinessNumber name changed to MFCanadianBusinessNumberType and base changed from String9Type to MFString9Type
- Removed simpleType MFFilingType
- Removed enumeration values IMPR, EXPR, DRPT from under MFReportIDType added pattern value ""
- Enumeration Resubmission name changed to Replace under MFAmendedReasonType
- Element City type changed from CityType to MFCityType under USAddress, CanadianAddress and MexicanAddress
- Element County type changed from CountyType to MFCountyType under USAddress
- Element State type changed from StateOnlyType to MFStateOnlyType under USAddress
- Element Province type changed from ProvinceType to MFProvinceType under CanadianAddress

## State Tax Commission

- Element MexicanState type changed from MexicanStateType to MFMexicanStateType under MexicanAddress
- Element MexicanPostalCode type changed from MexicanPostalCodeType to MFMexicanPostalCodeType under MexicanAddress
- Element City added type MFCityProvBaseType and removed simpleType restriction base TextType and MaxLength 50 under OtherForeignAddress
- Element ProvinceOrState added type MFCityProvBaseType and removed restriction base TextType and MaxLength 50 under OtherForeignAddress
- Element Country type changed from CountryType to ISOCountryType under OtherForeignAddress
- Element OtherPostalCode type changed from OtherPostalCodeType to MFOtherPostalCodeType under OtherForeignAddress
- Element CBN type changed from CanadianBusinessNumber to MFCanadianBusinessNumberType under MFFilerType
- Element StateLicenseNumber type changed from String9Type to MFFilerIDType and added minOccurs 0 under MFFilerType
- Element Name type changed from PersonNameType to BusinessNameLine1Type under MFFilerType
- Element Department type changed from DepartmentType to MFDepartmentType under MFContactType
- Element CBN type changed from CanadianBusinessNumber to MFCanadianBusinessNumberType under MFParticipantType
- Element City type changed from CityType to MFCityType under MFLocationType
- Element County type changed from CountyType to MFCountyType under MFLocationType
- Element State type changed from StateOnlyType to MFStateOnlyType under MFLocationType
- Element Province type changed from ProvinceType to MFProvinceType under MFLocationType
- Element MexicanState type changed from MexicanStateType to MFMexicanStateType under MFLocationType
- Added element MFOtherCountryDivision with restriction base StringType, minLength value 1 and maxLength value 3 under MFLocationType
- Element Country type changed from CountryType to ISOCountryType under MFLocationType
- Element TerminalReportDetailType name changed to MFTerminalReportDetailType
- Element ProductCode type changed from MFProductCode to MFProductCodeType
- Added attribute inventoryUOM with type MFInventoryUnitsOfMeasureType and use optional under MFTerminalReportDetailType
- Removed MFTerminalInventoryType with elements BeginningInventory, TotalReceipt, TotalDisbursement, GainLoss and EndingInventory also removed
- Element ProductCode type changed from MFProductCode to MFProductCodeType under MFPositionHolderReportType
- Added attribute inventoryUOM with type MFInventoryUnitsOfMeasureType and use optional under MFPositionHolderReportType
- Added attribute inventoryUOM with type MFInventoryUnitsOfMeasureType and use optional under MFInventoryType

## State Tax Commission

- Element ProductCode type changed from MFProductCode to MFProductCodeType under MFReportDetailType
- Added attribute inventoryUOM with type MFInventoryUnitsOfMeasureType and use required under MFRetailerInventoryType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under MFMeterReadingType
- Element RetailerReportDetailType name changed to MFRetailerReportDetailType
- Element ProductCode type changed from MFProductCode to MFProductCodeType under MFRetailerReportDetailType
- Added simpleType MFCityProvBaseType with documentation “Base type used for a city/province/state. Legal Characters: A-Z, a-z, single space, apostrophe, hyphen and period. Illegal Character: leading space, trailing space, adjacent spaces, and symbols.”, restricted base xsd:string, maxLength value 50 and pattern value ([A-Za-z-\'. ]?)[A-Za-z]
- Added simpleType MFCityType with documentation “Used for a city. Legal Characters: A-Z, a-z, single space, apostrophe, hyphen and period. Illegal Character: leading space, trailing space, adjacent spaces, and symbols.”, restriction base MFCityProvBaseType and maxLength value 22
- Added element Account with type String20Type under MFParticipantType
- Added element Address with type MFAddressType and minOccurs 0 under MFParticipantType
- Added element Facility with type MFFacilityNumberType and minOccurs 0 under MFMeterReadingType
- Added element PumpStatus with type MFPumpStatusType and minOccurs 0 under MFMeterReadingType
- Added element Facility with type MFFacilityNumberType and minOccurs 0 under MFRetailerReportDetailType

### MotorFuelsEnumeration

- simpleType MFProductCode name changed to MFProductCodeType
- Added enumeration value 259 with documentation Hydrogen under MFProductCodeType
- simpleType MFModeCode name changed to MFModeCodeType
- Removed enumeration value J\_ under MFModeCodeType
- Removed enumeration value R\_ under MFModeCodeType
- Removed enumeration value B\_ under MFModeCodeType
- Removed enumeration value S\_ under MFModeCodeType
- Added enumeration value GS with documentation “Gas” and documentation “Gas Station” under MFModeCodeType
- Added enumeration value RT with documentation “Removal from bulk transfer system (other than by truck or rail) for sale or consumption” under MFModeCodeType
- Added enumeration value CE with documentation “Summary of supplier schedule of receipts, schedule of disbursements; Carrier delivery schedules; Terminal Operator receipts and disbursements” under MFModeCodeType
- simpleType MFCarrierScheduleCode name changed to MFCarrierScheduleCodeType
- simpleType MFDistributorScheduleCode name changed to MFDistributorScheduleCodeType

## State Tax Commission

- simpleType MFRetailerScheduleCode name changed to MFRetailerScheduleCodeType
- simpleType MFSupplierScheduleCode name changed to MFSupplierScheduleCodeType
- simpleType MFTOScheduleCode name changed to MFTOScheduleCodeType
- Added documentation “Each state must add its own report form numbers HERE as enumerations” and enumeration value aaa under ReportIDType
- Added simpleType MFInventoryUnitsOfMeasureType with restriction base xsd:token, enumeration value Net and enumeration value Gross
- Added simpleType MFTLScheduleCodeType with documentation “FTA Uniform Schedule code and restriction base xsd:NMTOKEN”
- Added “/” to the restriction base on “xsd:NMTOKEN” under “MFProductCodeType”
- Deleted enumeration value 175 with documentation “Residual Fuel Oil (Roll-up Code)” under “MFProductCodeType”
- Deleted enumeration value E00 with documentation “Ethanol 100%” under “MFProductCodeType”
- Deleted enumeration value E01 with documentation “Ethanol 1%” under “MFProductCodeType”
- Deleted enumeration value E02 with documentation "Ethanol 2%" under “MFProductCodeType”
- Deleted enumeration value E03 with documentation "Ethanol 3%" under “MFProductCodeType”
- Deleted enumeration value E04 with documentation "Ethanol 4%" under “MFProductCodeType”
- Deleted enumeration value E05 with documentation "Ethanol 5%" under “MFProductCodeType”
- Deleted enumeration value E06 with documentation "Ethanol 6%" under “MFProductCodeType”
- Deleted enumeration value E07 with documentation "Ethanol 7%" under “MFProductCodeType”
- Deleted enumeration value E08 with documentation "Ethanol 8%" under “MFProductCodeType”
- Deleted enumeration value E09 with documentation "Ethanol 9%" under “MFProductCodeType”
- Deleted enumeration value E10 with documentation "Ethanol 10%" under “MFProductCodeType”
- Deleted enumeration value E11 with documentation "Ethanol 11%" under “MFProductCodeType”
- Deleted enumeration value E12 with documentation "Ethanol 12%" under “MFProductCodeType”
- Deleted enumeration value E13 with documentation "Ethanol 13%" under “MFProductCodeType”
- Deleted enumeration value E14 with documentation "Ethanol 14%" under “MFProductCodeType”
- Deleted enumeration value E15 with documentation "Ethanol 15%" under “MFProductCodeType”
- Deleted enumeration value E16 with documentation "Ethanol 16%" under “MFProductCodeType”

## State Tax Commission

- Deleted enumeration value E17 with documentation "Ethanol 17%" under "MFProductCodeType"
- Deleted enumeration value E18 with documentation "Ethanol 18%" under "MFProductCodeType"
- Deleted enumeration value E19 with documentation "Ethanol 19%" under "MFProductCodeType"
- Deleted enumeration value E20 with documentation "Ethanol 20%" under "MFProductCodeType"
- Deleted enumeration value E21 with documentation "Ethanol 21%" under "MFProductCodeType"
- Deleted enumeration value E22 with documentation "Ethanol 22%" under "MFProductCodeType"
- Deleted enumeration value E23 with documentation "Ethanol 23%" under "MFProductCodeType"
- Deleted enumeration value E24 with documentation "Ethanol 24%" under "MFProductCodeType"
- Deleted enumeration value E25 with documentation "Ethanol 25%" under "MFProductCodeType"
- Deleted enumeration value E26 with documentation "Ethanol 26%" under "MFProductCodeType"
- Deleted enumeration value E27 with documentation "Ethanol 27%" under "MFProductCodeType"
- Deleted enumeration value E28 with documentation "Ethanol 28%" under "MFProductCodeType"
- Deleted enumeration value E29 with documentation "Ethanol 29%" under "MFProductCodeType"
- Deleted enumeration value E30 with documentation "Ethanol 30%" under "MFProductCodeType"
- Deleted enumeration value E31 with documentation "Ethanol 31%" under "MFProductCodeType"
- Deleted enumeration value E32 with documentation "Ethanol 32%" under "MFProductCodeType"
- Deleted enumeration value E33 with documentation "Ethanol 33%" under "MFProductCodeType"
- Deleted enumeration value E34 with documentation "Ethanol 34%" under "MFProductCodeType"
- Deleted enumeration value E35 with documentation "Ethanol 35%" under "MFProductCodeType"
