TOTAL GALLONS OF WINE				TOTAL GALLONS OF BEER			

Multiply "Number of Bottles/Cases" by the "Conversion Factor" to equal "Total Gallons." For odd sizes, multiply the number of bottles or cases by the container size. This equals Total Ounces, Liters or Milliliters.

Ounces: Divide by 128 for Total Gallons.
Liters: Multiply by .26417 for Total Gallons.
Milliliters: Multiply by .00026417 for Total Gallons.

Under penalties of perjury, I certify that the above amount is true and correct and that the beer or wine has become unsalable, has been withdrawn from the market, and will be destroyed on the date and time shown above. I understand that I must have an approved copy of this certificate in my possession before destroying the product(s) identified on this application. I further understand that a representative from the Idaho State Tax Commission may be present to witness the destruction.
