1. Total number of allowances you're claiming.

Enter the number of children in your household age 16 or under as of December 31, 2020. If you have no qualifying children, enter "0." If your filing status will be head of household on your tax return, add "2" to the number of qualifying children. Don't claim allowances for you or your spouse. You can claim fewer allowances but not more.

If you're married, claim your allowances on the W-4 for the highest-paying job for the most accurate withholding. If you're married filing jointly, only one of you should claim the allowances. The other should claim zero allowances.

If you work for more than one employer at the same time, you should claim zero allowances on your W-4 with any employer other than your principal employer.

Write Exempt on line 1 if you meet both of the following conditions:

- Last year I had no Idaho income tax liability and
• This year I expect to have no Idaho income tax liability
