UPDATES FOR 2013

CONFORMITY TO INTERNAL REVENUE CODE (IRC)

Idaho conforms to the IRC as of January 1, 2013. Idaho doesn't conform to bonus depreciation for assets acquired after 2009.

CHANGE TO TECHNOLOGICAL EQUIPMENT DONATION DEDUCTION

The deduction for donations of technological equipment is limited to the lower of cost, fair market value or Idaho taxable income of the taxpayer.

CHANGE TO NET OPERATING LOSS CARRYBACKS

A net operating loss incurred in tax years beginning on or after January 1, 2013, will be subtracted in the twenty succeeding taxable years unless an amended return carrying the loss back is filed within one year of the end of the taxable year of the net operating loss that results in the carryback. If an amended return is filed to carry the loss back, the loss is applied to the two preceding taxable years and is limited to a maximum of \$100,000. The requirement to check the box to forgo the carryback of the net operating loss is no longer applicable.

CHANGE TO IDAHO SOURCE INCOME—GUARANTEED PAYMENTS

For tax years beginning on or after January 1, 2013, guaranteed payments up to \$250,000 in any calendar year to an individual partner are sourced as compensation for services. The amount in excess of \$250,000 is sourced to Idaho based upon the partnership's Idaho apportionment factor.

All compensation paid to a retired partner is sourced to the partner's state of domicile.

BIOFUEL INVESTMENT TAX CREDIT EXPIRED

The biofuel investment tax credit was eligible to be earned on qualified investments in Idaho that were placed in service in tax years beginning in 2007 and ending December 31, 2011. Although the credit can no longer be earned, it may be carried over for 5 years.

Form 71 is used to calculate the biofuel investment tax credit allowed.

GENERAL INFORMATION

WHO MUST FILE A FORM 41

A corporation or association that is transacting business in Idaho, is registered with the Idaho Secretary of State to do business in Idaho, or has income attributable to Idaho must file Form 41. This includes a(n):

- Corporation in business solely to perform contracts with the U.S. Department of Energy at the Idaho National Laboratory. This corporation is subject to the Idaho franchise tax. See Franchise Tax, page 3.
- Receiver, trustee in dissolution, trustee in bankruptcy, or assignee who possesses or holds title to all or substantially all of the property or business of a corporation, even if the property or business isn't being operated.
- Mutual savings bank that doesn't have capital stock represented by shares, a domestic building and loan association, a domestic savings and loan association, a federal savings and loan association with substantially all of the business confined to making loans to members, and a cooperative bank without capital stock operated for mutual purposes and without profit.
- Limited liability company treated as a corporation for federal income tax purposes.
- Common law trust treated as a corporation for federal income tax purposes.

A corporation that falls under the protection of Public Law 86-272 is not required to file.

WHO MUST FILE FORM 41S

A corporation filing as an S corporation for federal income tax purposes must file Form 41S if it:

- Is transacting business in Idaho, or
- Is registered with the Idaho Secretary of State to do business in Idaho

Idaho accepts the federal approval of the S corporation election. Federal Form 2553 or a copy of the federal notice approving the election must be included with your Idaho tax return for the first year you file Form 41S.

TRANSACTIONING BUSINESS

Transacting business in Idaho is indicated by, but not limited to, the following activities:

- Owning or leasing, as lessor or lessee, any property in Idaho
- Soliciting business in Idaho
- Being a member of a partnership or S corporation with business in Idaho
- Any Idaho activity from which income is received, realized, or derived
- Having an agent, such as a collector, repair person, delivery person, etc., acting on your behalf in Idaho

WHAT TO FILE

A complete copy of the federal income tax return must be included with your Idaho income tax return. If filing a Form 41S, all Schedules K-1 and Idaho Forms ID K-1 must be included with your return or submitted with the return on compact disc in Word, Excel, or PDF format. Failure to include a complete copy of the federal return may cause the return to be delinquent.

WHEN TO FILE

Returns for all corporations, except for farmers' cooperatives, are due on or before the 15th day of the fourth month following the close of the tax year. For a calendar year filer, this is April 15, 2014.

Short period returns are due by the later of the 15th day of the fourth month following the close of the tax year or by the date required for that period by the IRC.

The return for a farmers' cooperative is due on or before the 15th day of the ninth month following the close of the tax year. For a calendar year filer, this is September 15.

If the last day for filing a return falls on a Saturday, Sunday or legal holiday, the return is timely if it is filed on the next work day.

WHERE TO FILE

Mail the return and payment to:

Idaho State Tax Commission
PO Box 56
Boise ID 83756-0056

If you are sending your return using a delivery service that requires a physical address, use the following:

Idaho State Tax Commission
800 Park Blvd Plaza IV
Boise ID 83712-7742

ACCOUNTING METHODS

You must use the same accounting method that is used for federal income tax purposes. A change of accounting method must have prior approval from the Internal Revenue Service (IRS). Include a copy of the federal approval with your return.

ACCOUNTING PERIOD

You must use the same accounting period that is used for federal income tax purposes. A change to the annual accounting period must have prior approval from the IRS. Include a copy of the federal approval with your return.

AMENDED RETURNS

If you discover an error on your return after it is filed, use Form 41 or Form 41S to amend your return. Check the box at the top of the form and enter the reason for amending. Complete the entire form using the corrected amounts.

If you amend your federal return, an amended Idaho income tax return must be filed. The statute of limitations for receiving a refund is three years from the due date of the return or the date the return was filed, whichever is later.

Amended returns claiming refunds that aren't filed on the form for the applicable year will be returned to the taxpayer.

ASSEMBLING THE RETURN

To ensure that your return is correctly processed, include all forms and schedules in the following order:

- Form 41 or 41S, pages 1 and 2
- Form 42
- Form 75
- Form 44
- Forms ID K-1
- Additional schedules in alphabetical order
- Additional forms in numerical order
- Complete copy of federal return

BONUS DEPRECIATION

For Property Acquired Prior To 2008 or After 2009

If you claimed bonus depreciation for federal purposes:

- Complete and include a separate federal Form 4562 or detailed computation for Idaho depreciation purposes as if you hadn't claimed the special depreciation allowance.
- Use the Idaho depreciation amounts to compute the Idaho adjusted basis and any gains or losses from the sale or exchange of the property.
- Enter the differences between the Idaho and federal depreciation amounts, and gains and losses from sales or other exchanges of the property on the bonus depreciation line.

For Property Acquired After 2007 and Before 2010

Idaho conforms to the federal bonus depreciation provisions. The amounts you use for federal will also be used for Idaho. No additional forms or computations are needed for Idaho.

CHECK-THE-BOX REGULATIONS

Idaho follows the federal entity classification (check-the-box) regulations. Therefore, if an entity is classified or taxed as a corporation for federal income tax purposes, it will be treated as a corporation for Idaho income tax purposes.

DISREGARDED ENTITIES

Idaho follows the federal rules on disregarded entities for tax purposes. As a result, these entities are treated as a sole proprietorship, branch or division of their owners. Income, deductions and credits are treated as belonging to the owner. Apportionment attributes of the disregarded entity and the owner are totaled to result in one Idaho apportionment factor.

GENERAL INFORMATION

Include a schedule listing the name and federal identification number of disregarded entities that are included in your return.

E-FILE YOUR RETURN

The Tax Commission, with the IRS, provides electronic filing of federal and state corporation and S corporation income tax returns. The Federal/State MeF E-File Program provides one-stop electronic filing of returns in a single transmission. Taxpayers who file online get faster refunds, make fewer errors, and receive confirmation that their return was received. To e-file your return, visit our website at tax.idaho.gov to find a commercial software package for a fee or ask your tax preparer to e-file your return.

ELECTRONIC FUNDS TRANSFERS

Payments of \$100,000 or more must be paid by electronic funds transfer. If you are making an electronic funds transfer for the first time, contact the Tax Commission at (208) 334-7660 or (800) 972-7660 for further information.

ESTIMATED TAX PAYMENTS

A corporation must make estimated tax payments to the Tax Commission if it is required to make federal estimated tax payments and the Idaho tax liability is estimated to be \$500 or more. Estimated taxes are filed on Form 41ES. The estimated tax payments are due on the 15th day of the 4th, 6th, 9th, and 12th months of the tax year. For a calendar year filer, this is the 15th of April, June, September, and December.

Estimated taxes aren't required for the first year a corporation exists in Idaho. The corporation will be sent the necessary estimated tax payment form, Form 41EST.

EXTENSION OF TIME TO FILE

If you can't file your return by the due date, Idaho allows you an automatic six-month extension of time to file. To avoid paying a penalty, the amount of tax payments you have made must be at least 80% of the current year's tax liability or 100% of the total tax reported last year. Use Form 41ES to make your payment.

Even though an extension gives you more time to file, the tax is due on the original due date of the return. You must pay interest on any tax paid after the due date.

FEDERAL AUDIT

If your federal taxable income or tax credits change because of a federal audit, you must send written notice (including an amended return) to the Tax Commission within 60 days of the final federal determination. You must include copies of all schedules supplied by the IRS.

If you owe additional Idaho tax and don't send written notice within 60 days, a 5% negligence penalty will be imposed. Interest applies on any tax due.

If the final federal determination results in an Idaho refund, you must file an amended Idaho income tax return with the written notice. See Amended Returns. If the statute of limitations is closed, you have one year from the date of the final determination to file for the refund.

FORMS

Forms are available at all Tax Commission offices or may be obtained:

- By Internet. Download, view, or print Idaho income tax forms and publications from our website at tax.idaho.gov. Some forms can't be saved electronically at this time.
- By calling (208) 334-7660 in the Boise area or (800) 972-7660.

- By mail. Write to:

Idaho State Tax Commission
PO Box 36
Boise ID 83722-0410

You may use photocopies of these tax forms. Your copy must be legible.

FRANCHISE TAX

The franchise tax is imposed on a corporation for the privilege of exercising its corporate franchise in Idaho. This includes a corporation in business solely to perform contracts with the U. S. Department of Energy at the Idaho National Laboratory.

The tax is computed at 7.4% of Idaho taxable income. Corporations aren't subject to both the franchise tax and the income tax.

INTEREST

Interest applies on delinquent tax from the original due date of the return until the tax is paid at the rate of 4% per year (rate effective for 2014).

MINIMUM TAX

The minimum tax of \$20 is required for each corporation that transacts business in Idaho, is registered with the Idaho Secretary of State to do business in Idaho, or is exercising its corporate franchise in Idaho. This includes an S corporation. For a unitary group of corporations, the \$20 minimum tax is required for each corporation in the unitary group that is required to file an Idaho income tax return, even though only one Idaho group return is filed.

The \$20 minimum tax isn't required to be paid by the following:

- A nonproductive mining corporation
- A corporation not organized for profit that isn't required to pay federal tax on unrelated business income
- A homeowners' association filing Form 1120-H and having no federal taxable income
- A corporation under the protection of Public Law 86-272

NET OPERATING LOSS (NOL)

A corporation incurs an Idaho NOL in a year when it is transacting business in Idaho and its Idaho taxable income is less than zero. An NOL incurred by a corporation during a tax year in which it wasn't transacting business in Idaho may not be subtracted.

A net operating loss incurred in tax years beginning on or after January 1, 2013, will be subtracted in the twenty succeeding taxable years unless an amended return carrying the loss back is filed within one year of the end of the taxable year of the net operating loss that results in the carryback. If an amended return is filed to carry the loss back, the loss is applied to the two preceding taxable years and is limited to a maximum of \$100,000. The requirement to check the box to forgo the carryback of the net operating loss is no longer applicable.

For tax years beginning on or after January 1, 2000 and prior to January 1, 2013, the NOL generally must be carried back to the two preceding years. The carryback is limited to a maximum of \$100,000. Any remaining loss may be carried forward until used, but no longer than 20 years.

For tax years beginning prior to January 1, 2000, the NOL generally must be carried back to the three preceding years. The carryback is limited to a maximum of \$100,000. Any remaining loss may be carried forward until used, but no longer than 15 years.

GENERAL INFORMATION

An S corporation isn't allowed a deduction for an NOL carryback or carryforward. The loss must be passed through to the shareholder to be taken on his individual income tax return.

PAYMENTS

Make your check, cashier's check, or money order payable to the Idaho State Tax Commission and include it with the tax return. Write your federal employer identification number on your check, cashier's check, or money order.

To pay by credit card, debit card, or e-check, visit our website at tax.idaho.gov.

For payments of \$100,000 or more, see Electronic Funds Transfers.

PENALTIES

Penalties may be imposed on the tax due as follows:

- 0.5% per month or fraction of a month to a maximum of 25% for failure to pay the tax due (if return is filed)
- 2% per month or fraction of a month for failure to meet the extension criteria (the return must be filed by the extended due date and taxes must be paid by the earlier of the date the return is filed or the extended due date)
- 5% per month or fraction of a month to a maximum of 25% for failure to file the return timely
- 5% for negligence or disregard of rules
- 10% for substantial understatement of tax
- 50% for filing a false or fraudulent return

The minimum penalty is \$10.

PERMANENT BUILDING FUND (PBF) TAX

A corporation required to file an Idaho income tax return must pay the \$10 PBF tax. This includes homeowners' associations, inactive or nameholder corporations, and nonproductive mining corporations that are registered with the Idaho Secretary of State to do business in Idaho. The PBF tax must be paid by each corporation in the unitary group that is required to file an Idaho income tax return, even though only one Idaho group return is filed. A corporation under the protection of Public Law 86-272 isn't required to pay the PBF tax.

An S corporation required to pay tax on excess net passive income or net recognized built-in gains must pay the PBF tax. An S corporation is required to pay the PBF tax for each nonresident individual shareholder meeting the Idaho filing requirement and electing to have the S corporation pay the tax on his share of the income. A nonresident individual meets the Idaho filing requirement with gross income from Idaho sources in excess of \$2,500.

QUALIFIED SUBCHAPTER S SUBSIDIARIES (QSSS)

Idaho follows the federal election to treat a qualified subsidiary of an S corporation as a QSSS. As a result, the S corporation parent and the subsidiary are treated as one corporation. Income, deductions, and credits of the QSSS are treated as income, deductions, and credits of the parent. Apportionment attributes of the QSSS are also totaled with the parent's apportionment attributes to compute one Idaho apportionment factor.

ROUNDING

Round the amounts on the return to the nearest whole dollar.

SIGNATURE

The return must be signed by an authorized individual on behalf of the corporation.

TAX DUE FOR NONRESIDENT OFFICERS, DIRECTORS, AND SHAREHOLDERS

A nonresident individual shareholder, officer, or director may have the S corporation pay the tax on his income from that S corporation. This income includes wages, salaries, and other compensation, and the individual's share of income, loss, or deduction.

Not all deductions allowed on an individual return are allowed when a corporation pays the tax for an individual officer, director, or shareholder. For example, S corporations aren't allowed deductions for carryovers or carrybacks of net operating losses, capital losses or personal exemptions.

The S corporation will be taxed on this income at the corporate rate of 7.4%.

These provisions apply to an S corporation that is transacting business in Idaho.

TAX PERIOD/YEAR COVERED BY RETURN

Use the 2013 form to file your tax return for calendar year 2013 or the fiscal year beginning in 2013.

TAX PREPARER CONTACT BOX

This box applies only if you paid a tax preparer to complete your return. If you check the box, you are authorizing the Tax Commission to discuss your return with the paid preparer identified on your return.

You are also authorizing the paid preparer to:

- Give the Tax Commission any information that is missing from your return, and
- Call the Tax Commission for information about the processing of your return or the status of your refund or payments.

You are not authorizing the paid preparer to receive any refund check, bind you to anything including any additional tax liability, or otherwise represent you before the Tax Commission.

This authorization is valid for up to 180 days from the date the Tax Commission receives the return. If you want the Tax Commission to contact you rather than your preparer, leave the box blank.

GENERAL INFORMATION FOR MULTISTATE & MULTINATIONAL TAXPAYERS AND UNITARY GROUPS

The following instructions apply only to corporations that are taxable in Idaho and another state or country (multistate and multinational corporations) or are part of a unitary group of corporations.

ALLOCATION AND APPORTIONMENT OF INCOME

Business Income. Business income includes income from transactions or activity in the regular course of your trade or business. Business income also includes income from tangible or intangible property if the acquisition, management, or disposition of the property is an integral part of your regular trade or business operations. Business income may result even though the income was derived from an occasional or extraordinary transaction. All business income must be apportioned using the apportionment formula.

Nonbusiness Income. Nonbusiness income is all income other than business income and must be allocated, not apportioned. Allocation is the assignment of nonbusiness income to a specific state.

GENERAL INFORMATION

Apportionment Formula. The apportionment formula consists of three factors: property, payroll, and sales. These percentages are averaged to arrive at the Idaho apportionment factor. For most taxpayers, the sales factor is double weighted.

Electrical and telephone utilities must use a single-weighted sales factor. See the instructions for Form 42.

EXCEPTIONS TO APPORTIONMENT FORMULA

The apportionment formula is presumed to be the correct way to apportion business income. However, if the allocation and apportionment provisions don't fairly represent your business activity in Idaho, you can ask the Tax Commission for permission to use separate accounting, exclude one or more factors, or include one or more additional factors.

Separate Accounting. Separate accounting means allocating income and related expenses to the state where the activity occurred. You must receive prior approval from the Tax Commission to use separate accounting. Permission won't be granted just because you can identify income and expenses by location or because the standard apportionment formula results in more tax to Idaho than another method.

In your request to use separate accounting you must explain in detail why the standard allocation and apportionment provisions don't fairly represent the extent of your business activity in Idaho. You must also show that your business has unique and nonrecurring situations that produce inconsistent results. If you have a unitary business, the law assumes that unitary filing and apportionment more accurately reflects your income, unless you can prove otherwise.

You must submit a written request at least 30 days prior to the due date for filing the return, not including extensions. Mail your request to:

Income Tax Policy
Idaho State Tax Commission
PO Box 36
Boise ID 83722-0410

Exclusion of a Factor. If any of the factors (property, payroll, or sales) don't apply to your business, use the remaining factors to compute the Idaho apportionment factor. To determine the average percentage, divide only by the number of factors used. For example, if your corporation has no employees anywhere, the number of factors is reduced by one.

Alternative Tax Computation on Idaho Gross Sales. A corporation that doesn't own or rent any Idaho property, whether real or personal, and doesn't have any Idaho payroll may elect to pay tax to Idaho at the rate of 1% of Idaho gross sales if its Idaho sales are \$100,000 or less. To make this election, you must include a written statement with the return. Your statement must include your intent to make the election to pay the alternative tax on Idaho gross sales and affirm that for the tax year the corporation:

- Did not have any Idaho property and was not renting any Idaho property
- Did not have any Idaho payroll
- Did not have Idaho sales exceeding \$100,000

You can't change your election for the year once you file your return. You will compute your tax based on 1% of the Idaho gross sales. You won't compute an Idaho apportionment factor or complete Form 42 if you have met the criteria listed and included your election statement.

MODIFIED FACTORS FOR CERTAIN INDUSTRIES

The following businesses must use special rules in computing the apportionment factors:

- Airlines
- Trucking Companies
- Railroads
- Construction Contractors
- Television and Radio Broadcasters
- Publishers
- Financial Institutions

See the instructions for Form 42.

UNITARY BUSINESS

A multistate business is unitary when the operations conducted in Idaho are integrated with, depend on, or contribute to the business outside Idaho. There are various judicially acceptable tests that are used to make this determination and a business will be determined to be unitary even if only one of the tests is met. The following are some of these tests:

The three unities test. This test is met if all three of the following unities are met:

- Unity of ownership;
- Unity of operation as evidenced by central divisions for functions such as purchasing, advertising, accounting, and management; and
- Unity of use in its centralized executive force and generalized system of operations.

The contribution or dependency test. This test is met when the operations in Idaho contribute to or are dependent on the operations of the business performed outside Idaho.

Contributions to income test. This test is met if significant flows of value are present evidenced by factors such as:

- Functional integration
- Centralization of management, and
- Economies of scale

The presence of any of the following generally indicates a unitary business:

1. All activities of the group are in the same general line or type of business
2. The activities of the group constitute different steps in a vertically structured enterprise
3. The group is characterized by strong centralized management and centralized departments exist for functions such as financing, advertising, research, or purchasing

COMBINED REPORTING METHOD

The combined report shouldn't be confused with a federal consolidated return. A combined report refers to the method used to compute the amount of business income to be reported to Idaho by each member of a unitary group and not whether the unitary group files a group return or several returns. This method uses the apportionment factor to measure the economic activities of the taxpayer in a state. Use of the combined report doesn't disregard the separate corporate identities of the members of the unitary group.

An S corporation can't use the combined reporting method.

The combined report may be reflected on one group return filed by the unitary group or on two or more returns, one for each member that has an Idaho filing requirement. If a group return is filed for the unitary group, the following information must be included with the return for each corporation that has an Idaho income tax filing requirement:

- Idaho and combined property, payroll, and sales amounts and the resulting apportionment factor
- Idaho tax computation

GENERAL INFORMATION

- Idaho net operating loss calculation
- Idaho tax credits and limitations

The combined reporting method is required if two or more corporations are engaged in a unitary business, and more than 50% of the voting stock is owned directly or indirectly by a common owner or owners. For more information, call (800) 972-7660 to order the *Guide to Combined Reporting* or obtain a copy at tax.idaho.gov.

A change from the use of the combined reporting method is allowed only with prior consent from the Tax Commission. You must submit a written request at least 30 days prior to the due date of the return, not including extensions. Mail your request to:

Income Tax Policy
Idaho State Tax Commission
PO Box 36
Boise ID 83722-0410

WORLDWIDE FILING

If a taxpayer is part of a unitary group, the combined report must include the income or loss and apportionment factor attributes of all unitary affiliates with more than 50% common ownership. This includes corporations incorporated outside the United States.

WATER'S EDGE ELECTION

The water's edge election is applicable only to a unitary business that has ownership in at least one foreign affiliate who doesn't file a federal income tax return. The business may elect to exclude foreign affiliates from the combined report unless they are included in a federal return and be taxed only on a percentage of any dividends received from the foreign affiliates.

Only the income and apportionment factors of unitary corporations filing a federal income tax return or included in a federal consolidated return are taken into account in determining Idaho taxable income.

To make a valid water's edge election, the Water's Edge Election and Consent Form, Form 14, must be filed with the original return for the first year the election is made. The election can't be made on an amended return. If a taxpayer wishes to change from the water's edge method to the worldwide filing method, permission must be requested from the Tax Commission.

The domestic disclosure spreadsheet must be filed within six months after filing the Form 41. A unitary business may elect to forgo the filing of the spreadsheet; however, the 85% exclusion of dividends from foreign corporations must be reduced to 80%. The election to forgo filing the spreadsheet is a yearly decision made by checking the "Yes" box on line 8b, Form 41.

To request the Idaho Water's Edge Election and Consent Form, and the domestic disclosure spreadsheet and instructions, call (800) 972-7660. You may obtain a copy of the Water's Edge Election Pamphlet at tax.idaho.gov.

MULTISTATE CORPORATE MEMBERS OF PARTNERSHIPS

If a corporation required to file an Idaho income tax return is a member of an operating partnership or joint venture, the corporation must apportion its share of the partnership's business income or loss along with all other net business income or loss of the corporation. The corporation's share of the partnership's property, payroll and sales is determined in the same proportion as the partnership's income is distributed and must be included in the corporation's apportionment computation.

NET OPERATING LOSS (NOL)

Each affiliated corporation included in a unitary group return must compute its own share of the combined NOL apportioned to Idaho and apply its loss to its apportioned income.

The provisions of IRC Section 381 and 382 apply in computing the Idaho net operating loss of merged corporations. The IRC Section 382 loss limitation is limited by the pre-merger loss corporation's Idaho apportionment factor for the last tax year before the merger.

Enter the amount of nonbusiness income allocated to Idaho less the nonbusiness expense offset from line 30 that applies to this income. A schedule detailing the source of the income allocated to Idaho must be included.

LINES 40 - 43

Refer to Form PTE-12 for instructions.

CREDITS

Except for the Hire One Act credit and the investment tax credit earned by an S corporation while a former C corporation, credits earned by the S corporation are passed through to each shareholder based on that shareholder's pro rata share of S corporation income or loss. When an S corporation has a fiscal year end other than that of the shareholder, the credit passes through in the same period that the S corporation income or loss is reported by the shareholder for federal tax purposes.

The S corporation must provide each shareholder with an Idaho Form ID K-1. This form shows the shareholder's pro rata share of credits earned, credits subject to recapture, and contribution information needed to calculate certain credits. Each shareholder uses this information to determine the amount of Idaho credit allowed, recapture required, and credit carryovers that exist on the shareholder's Idaho income tax return. Credits reported by each shareholder are subject to the limitations

applicable to that shareholder. Copies of Form ID K-1 must be included with the Idaho S Corporation Income Tax Return for the year in which the credit is earned.

If an individual shareholder has his share of the income taxed on the S corporation's return, the tax may be offset by that shareholder's pro rata share of credits. Credits applied to this tax are computed based on the credit limitations applicable to corporations. For example, if an S corporation pays the tax for three individual shareholders, the amount of credit for contributions to educational institutions is the lesser of the following amounts:

- 50% of the three shareholders' share of the amount donated,
- 10% of the tax computed for the three shareholders, or
- \$5,000

Credits allowed to a shareholder that aren't used to offset his tax can't be used to offset the tax computed for other shareholders. The following credits, however, are available to be transferred to another taxpayer rather than used by the taxpayer who earns the credit:

- Broadband equipment investment credit
- Incentive investment tax credit

To claim a credit you acquired through a transfer, you must include a copy of the Idaho Statement of Credit Transfer, Form 70, with each return on which you are claiming transferred credit.

LINE 44 CREDIT FOR CONTRIBUTIONS TO IDAHO EDUCATIONAL ENTITIES

Donations made by an S corporation to a qualified educational entity may qualify for a tax credit. Donations of goods or services don't qualify.

- If the S corporation claimed the credit for qualifying new employees, the applicable pro rata share of the amount from Form 55, Part II, line 5, or
- If the credit for qualifying new employees is not being claimed, the smallest of:
 - One-half of the amount donated,
 - 10% of the tax on line 43, or
 - \$5,000

Don't enter the total credit earned by the S corporation if the S corporation isn't paying the tax for all shareholders.

 - One-half of the amount donated,
 - 10% of the tax on line 43,
 - \$500, or

OTHER TAXES

LINE 49 MINIMUM TAX

A minimum tax of \$20 is required. If the S corporation owes federal tax on excess net passive income or net recognized built-in gains, compute the Idaho tax using the following instructions:

- The Idaho tax on excess net passive income is computed by multiplying 7.4% by the lesser of Idaho apportioned excess net passive income or Idaho apportioned taxable income. See federal Form 1120S instructions. Include a copy of the computations.
- The Idaho tax on net recognized built-in gains is computed by multiplying 7.4% by the Idaho apportioned net recognized built-in gain. See federal Form 1120S, Schedule D instructions. Include a copy of the computations.
- If the corporation was previously a C corporation with credit carryover, the credit may be used to offset all or part of the tax.

If the total tax computed is more than \$20, draw a line through the 20 printed on the form. Enter the total Idaho tax on excess net passive income and net recognized built-in gains, less applicable income tax credit carryovers on line 49. Credit limitations apply. - File the return by the extended due date and pay the tax due by the earlier of the date the return is filed or the extended due date.

If the S corporation pays at least 80% of the tax due on the return or 100% of the total tax reported last year by the original due date, but fails to file the return by the extended due date or pay the remaining tax by the earlier of the date the return is filed or the extended due date, the following penalties will apply:

- If the return is filed on or before the extended due date, a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to date of payment.
- If the return is filed after the extended due date, a 5% per month late filing penalty will be computed on tax due from the extended due date to the earlier of the date the return is filed or the date the tax is paid, plus a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date the tax is paid if the tax is paid after the return is filed.

If the S corporation doesn't pay at least 80% of the tax due on the return or 100% of the total tax reported last year by the original due date, the following penalties will apply unless the payment required to satisfy the extension criteria is \$50 or less:

- If the return is filed by the original due date, a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date of payment.
- If the return is filed on or before the extended due date, a 2% per month extension penalty will be computed on tax due from the original due date to the earlier of the date the tax is paid or the date the return is filed, plus a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date the tax is paid if the tax is paid after the return is filed.
- If the return is filed after the extended due date, but the tax is paid on or before the extended due date, a 2% per month extension penalty will be computed on tax due from the original due date to the date the tax is paid.
- If the return is filed and the tax is paid after the extended due date, the maximum 25% penalty will apply.

The minimum penalty is \$10. The maximum penalty is 25% of the tax due.

**INSTRUCTIONS FOR FORM 44
IDAHO BUSINESS INCOME TAX CREDITS AND CREDIT RECAPTURE**

Part I of Form 44 provides a listing of the Idaho business credits allowed and the credit carryover amounts.

Part II of Form 44 provides a listing of the tax from recapture of income tax credits.

The total of the business income tax credits allowed and the tax from recapture of income tax credits will be carried to the Form 41. If the S corporation is paying the tax for one or more shareholders, those shareholders' pro rata share of the total business income tax credits and tax from recapture of income tax credits will be carried to the Form 41S. Don't enter the total credit or tax from recapture if the S corporation isn't paying the tax for all the shareholders.

You must include Form 44 with your return if you are claiming any business income tax credits or have any tax from recapture of income tax credits.

Credits earned by a C corporation prior to becoming an S corporation may be used to offset any tax on excess net passive income or net recognized built-in gains, subject to the credit limitations. Include a schedule showing the application of the credit carryovers to the S corporation's tax.

PART I BUSINESS INCOME TAX CREDITS

Part I has two columns: the Credit Allowed column for the amount of credit allowed for the tax year and the Carryover column for the amount of carryover that exists at the end of the tax year.

If the corporation is filing a combined return, the following credits can be shared with members of the combined group rather than carried forward to future years:

- Investment tax credit
- Credit for Idaho research activities
- Broadband equipment investment credit
- Incentive investment tax credit
- Small employer income tax credits
- Biofuel infrastructure investment tax credit

The corporation that earned the credit must claim the credit to the extent allowable against its tax liability before sharing the credit with other members. A corporation that receives the credit through unitary sharing computes the applicable limitations based on its tax. Any unused credit remains with the member that earned the credit. A schedule must be included identifying the member earning the credit and the members using the credit.

The following credits are available to be transferred to another taxpayer rather than used by the taxpayer who earns the credit:

- Broadband equipment investment credit
- Incentive investment tax credit

To claim a credit you acquired through a transfer, you must include a copy of the Idaho Statement of Credit Transfer, Form 70, with each return on which you are claiming transferred credit.

Qualified equipment is machinery or equipment in Idaho with a useful life of three years or more. In addition, 90% of the equipment's production must result in products utilizing postconsumer or postindustrial waste.

Product is any manufactured material that is composed of at least 50% of postconsumer or postindustrial waste and offered for sale. Product does not include shredded material unless it is incorporated directly into the manufacturing process.

Postconsumer waste or postindustrial waste includes only glass, paper, or plastic that have been, or would have been, disposed of as solid waste. It doesn't include radioactive or hazardous waste.

Include a schedule showing your computations, listing the qualified equipment, identifying the postconsumer or postindustrial waste products, and identifying the newly manufactured products.

INSTRUCTIONS FOR FORM 42

IDAHO APPORTIONMENT AND COMBINED REPORTING ADJUSTMENTS

Part I of this form provides the computation of the Idaho apportionment factor and is to be used by taxpayers who have income from business activity that is taxable in Idaho and another state or country.

If the taxpayer is a partner in a partnership or a shareholder in an S corporation, the taxpayer must take into account the activity of the pass-through entity in determining whether the taxpayer has income from business activity that is taxable in Idaho and another state or country. Include the taxpayer's share of the pass-through entity's property, payroll, and sales numbers from Form ID K-1 in the amounts reported on Form 42.

Part II of this form provides the worldwide and water's edge adjustments to compute combined income. Part II must be used by a corporation that has ownership in at least one foreign affiliate.

PART I APPORTIONMENT FORMULA

GENERAL INFORMATION

If the taxpayer transacts business in Idaho and another state or country, include a schedule showing apportionment detail by company.

CORPORATIONS

When a unitary group files using the combined reporting method, each corporation included in the combined group must compute its own apportionment factors. It does this by including its total Idaho property, sales, and payroll in the numerators and using the property, sales, and payroll of all the corporations included in the combined report in the denominators. Form 42 is used to show the total for the unitary group. A schedule must be included detailing the Idaho apportionment factor computation for each corporation in the group.

Worldwide Filers: For multinational unitary groups using the worldwide filing method, the denominators include the total property, sales, and payroll of all domestic and foreign corporations included in the unitary group.

Water's Edge Filers: For multinational unitary groups using the water's edge filing method, the denominators include only the total property, sales, and payroll of the water's edge combined group. These would exclude the property, sales, and payroll of foreign subsidiaries whose income isn't included in the computation of apportionable income. To the extent dividends are included in apportionable income, they are included in the sales factor denominator.

All intercompany amounts should be excluded from the computation of the apportionment factors.

PROPERTY FACTOR

The property factor is a fraction. The numerator is the average value of real and tangible personal property owned or rented and used in Idaho during the tax year to produce business income. The denominator is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax year to produce business income. Property used in the production of nonbusiness income is excluded from the factor.

Property is included in the factor if it is actually used or capable of being used during the tax year in the regular course of the trade or business of the taxpayer. Property under construction is excluded.

Property owned by the taxpayer is valued at its original cost. Original cost is the basis of the property for federal income tax purposes (prior to any federal adjustments) when it was acquired by the corporation and adjusted for subsequent capital additions or improvements, special deductions or partial disposition because of sale, exchange, abandonment, etc. Depreciation doesn't reduce original cost.

The average value of property owned by the taxpayer is computed by averaging the values at the beginning and ending of the tax year. The Tax Commission may require or allow the averaging of monthly values to properly reflect the average values.

FORM 42

Property rented is valued at eight times the net annual rental rate. The net annual rental rate for any item of rented property is the total rents paid for the property, less the aggregate annual subrental rates paid by subtenants. Subrents aren't deducted when the subrents are business income.

SALES FACTOR

The sales factor is double weighted for all taxpayers except electrical and telephone utilities. Electrical and telephone utilities use a single-weighted sales factor.

The sales factor is a fraction. The numerator is the gross receipts derived during the tax year from transactions and activities attributable to Idaho in the regular course of the taxpayer's trade or business. The denominator is the total gross receipts derived during the tax year from transactions and activities everywhere in the regular course of the corporation's trade or business. Receipts derived from the production of nonbusiness income are excluded from the sales factor.

Sales includes all gross receipts derived from transactions and activities in the regular course of trade or business. Gross receipts means gross sales, less returns and allowances. Gross receipts from sales of tangible personal property are assigned to Idaho if:

- Property is delivered or shipped to a purchaser in Idaho regardless of F.O.B. point or other conditions of sales
- Property is shipped from an office, store, warehouse, factory, or other place of storage in Idaho and the taxpayer isn't taxable in the state of the purchaser (throwback sales) or the purchaser is the U.S. Government

Sales also includes gross receipts from services and all other gross receipts such as interest, dividends, rents, royalties, gross receipts from the sale of property, and other income derived by the taxpayer in the regular course of business. If gross receipts don't fairly represent the extent of your business activity in Idaho, you may petition, or may be required, to use another method to obtain an equitable result. Income from services is attributable to this state to the extent that the services are performed in Idaho.

Although the following amounts may be business income, gross receipts don't include such items as the repayment, maturity, or redemption of the principal of a loan, bond, mutual fund or certificate of deposit or similar marketable instrument, the principal amount received under a repurchase agreement, the proceeds from issuing your own stock or from the sale of treasury stock, damages or other amounts received from litigation, property acquired by an agent on behalf of another, tax refunds or other tax benefit recoveries, pension reversions, contributions to capital, income from the forgiveness of indebtedness, and amounts realized from exchanges of inventory that aren't recognized by the IRC.

PAYROLL FACTOR

The payroll factor is a fraction. The numerator is the compensation paid in Idaho during the tax year to produce business income. The denominator is the total compensation paid during the tax year to produce business income. Compensation connected with the production of nonbusiness income is excluded from the payroll factor.

The total amount paid to employees is determined on the basis of the taxpayer's accounting method. Under the accrual method, all compensation properly accrued is deemed to have been paid. If you are required to report compensation under the cash method for unemployment compensation purposes, you may use the cash method to include compensation paid to employees in the payroll factor.

Compensation means wages, salaries, commissions, and any other form of payment to employees for personal services.

Payments made to an independent contractor, or any other person not properly classifiable as an employee, are excluded.

Compensation is paid in Idaho if any one of the following tests are met:

- The individual's service is performed entirely within Idaho.
- The individual's service is performed both in and outside Idaho but the service performed outside Idaho is incidental to the individual's service in Idaho.
- Some of the service is performed in Idaho and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in Idaho.
- Some of the service is performed in Idaho and the base of operations, or the place from which the service is directed or controlled, isn't in any state in which some part of the service is performed, but the individual's residence is in Idaho.

MODIFIED FACTORS FOR CERTAIN INDUSTRIES

Idaho has adopted the Multistate Tax Commission (MTC) regulations for the following special industries. Examples of the computations of these factors are found in the applicable MTC regulations on the Internet. The Tax Commission website has a link to the regulations at tax.idaho.gov.

Airlines

If you are in the business of transporting passengers, freight or mail by air, your apportionment factor should reflect the movement of your transportation equipment and personnel. Include transportation revenue, property ready for flight, and transportation payroll in the Idaho numerators based on the percentage of Idaho departures of aircraft weighted as to the value of aircraft by type to the total departures similarly weighted.

The value of nonflight property and nonflight payroll will be allocated to the state based on the general apportionment rules.

Railroads and Trucking Companies

If you are in the business of transporting passengers, freight, or mail by motor carrier or rail, your apportionment factor should reflect the movement of your transportation equipment and personnel. Include the transportation revenue, property, and payroll in the Idaho numerators based on the percentage of miles traveled in Idaho to miles traveled everywhere.

Other revenue, fixed property, and compensation of employees assigned to fixed locations are included in the factors based on the general apportionment rules. Per diem and mileage charges paid or received for the temporary use of railroad cars shouldn't be included in the sales or property factors.

Construction Contractors

You must use the same long-term contract accounting method for Idaho reporting purposes that you used for federal reporting purposes. If the percentage of completion method is used, the following special rules apply in addition to the general property, payroll, and sales factor rules.

The property factor denominator includes the average value of the taxpayer's cost of construction in progress (including materials and labor) to the extent the costs exceed progress billings. The portion of this amount attributable to construction projects in Idaho is included in the Idaho numerator. If progress billings exceed construction costs, don't include any value in the property factors for the taxpayer's equity in the project.

The sales factor includes only the portion of the gross contract price which corresponds to the percentage of the entire contract which was completed at the end of the tax year. For example, if the project was 30% complete at the end of the tax year, 30% of the bid price should be included in the gross receipts. Gross receipts from a construction project are attributable to Idaho if the construction is located in Idaho. Gross receipts from a

FORM 42

construction project located partially in Idaho are included in the numerator based on ratio of construction costs for the project in Idaho for the tax year to the total of construction costs for that project for the tax year.

Compensation paid for work on a particular construction project is included in the payroll factor even though capitalized into the cost of construction. Compensation is attributable to the state where most of the employee's service is performed, regardless of where reported for unemployment tax purposes.

Publishers

If you are in the business of publishing, selling, licensing or distributing books, newspapers, magazines, periodicals, trade journals or other printed material, include outer-jurisdictional property in the property factor whether owned or rented if used in your business. Outer-jurisdictional property includes such items as orbiting satellites and undersea transmission cables that aren't physically located in any particular state. The portion of outer-jurisdictional property attributable to Idaho is computed using the ratio of Idaho usage to usage everywhere.

The sales numerator includes gross receipts from the sale of printed materials delivered or shipped to a purchaser or subscriber in Idaho. Gross receipts from the advertising and the sale, rental or other use of customer lists are included as Idaho sales as determined by a circulation factor.

If the purchaser or subscriber is the U.S. Government or you aren't taxable in the state, the gross receipts are attributable to Idaho if the printed material or other property is shipped from a business location in Idaho.

Broadcasters

If you are in the business of conducting television or radio broadcasts, either through a network or through an affiliated, unaffiliated or independent television or radio broadcasting station, your apportionment factor should exclude outer-jurisdictional, film and radio programming property. Outer-jurisdictional property includes orbiting satellites and undersea transmission cables that aren't physically located in any particular state. Film programming means performances, events, or productions telecast, live or otherwise, on television. It includes news and sporting events in the format of a motion picture, a video tape, or other medium. Radio programming means all performances, events, or productions broadcast live or otherwise on radio. It includes commercial, educational or artistic works, in the format of an audio tape, disc or other medium.

Audio or video cassettes, discs or similar medium containing film or radio programming that is intended for sale or rental for home viewing or listening is included in the property factor at original cost.

The value of property located or used in Idaho for part of the tax year is included in the Idaho property numerator based on the ratio that the number of days the property is located or used in Idaho bears to the total number of days you owned or rented the property during the tax year.

Idaho sales include advertising revenue from live television, film or radio programming in release to or by television and radio stations located in Idaho and receipts from live telecasts, films and radio programs based on the audience factor.

The payroll factor includes residual and profit participation payments paid to employees, directors, actors, newscasters, and other individuals in a role of employee. Include amounts paid to an individual, corporation, or other business entity for providing the services of directors, actors, newscasters, and other talent for a live television broadcast, film or radio program if the payments were at least 25% of total compensation paid to employees and the extent of your business activity in Idaho

wouldn't be fairly represented by not including the amounts. The portion of these amounts attributable to Idaho is determined according to the general apportionment rules.

Financial Institutions

The apportionment factor of a financial institution should reflect the business of extending credit through loans and credit cards by including the value of these intangibles in the property factor.

Financial institution means:

- A corporation registered under state law as a bank holding company or registered under the Federal Bank Holding Company Act, as amended, or registered as a savings and loan holding company under the Federal National Housing Act, as amended
- A national bank organized under the National Bank Act
- A savings association or federal savings bank as defined in the Federal Deposit Insurance Act
- A bank or thrift institution incorporated or organized under the laws of any state
- A corporation organized under the provisions of Title 12 U.S.C. §§ 611 to 631
- An agency or branch of a foreign depository as defined in Title 12 U.S.C. § 3101
- A production credit association organized under the Federal Farm Credit Act of 1933, all of whose stock held by the Federal Production Credit Corporation has been retired
- A corporation whose voting stock is more than 50% owned by a financial institution (insurance companies excluded)
- A corporation that in the current year and immediately preceding two years, derived more than 50% of its total gross income for financial accounting purposes from finance leases

In addition to the property included under the standard property factor as discussed on page 18, the property factor must also include the average value of loans and credit card receivables. Loans and credit card receivables are valued at their average outstanding principal balance, without regard to any reserve for bad debts.

Loans and credit card receivables are considered located in Idaho if they are properly assigned to a regular place of business in this state; that is, if the loan has a preponderance of substantive contacts with that place of business. To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, consideration shall be given to such activities as the solicitation, investigation, negotiation, approval, and administration, of the loan.

There are also special sales factor rules for attributing receipts to a state. The payroll factor is computed the same as under the standard apportionment rules. See page 19.

SPECIFIC INSTRUCTIONS

Instructions are for lines not fully explained on the form. Compute all percentages to four places to the right of the decimal point (00.0000%). Include a schedule showing apportionment detail by company if filing for a unitary group.

TOTAL PERCENTAGE

Line 20. For all taxpayers other than electrical and telephone utilities, add the percentages on lines 9, 17, and 19. For electrical and telephone utilities, add the percentages on lines 9, 16, and 19.

IDAHO APPORTIONMENT FACTOR

Line 21. For all taxpayers other than electrical and telephone utilities, divide the total on line 20 by 4. For electrical and telephone utilities, divide the total on line 20 by 3.

If any of the factors don't apply to your business, divide the total on line 20 by the number of factors used. For example, if your business has no employees anywhere, your factor is reduced by one.

PART II COMBINED REPORTING ADJUSTMENTS

GENERAL INFORMATION

The worldwide filing method is required for all corporations unless the water's edge election has been made. The water's edge election must be made by filing Form 14, Idaho Water's Edge Election and Consent Form, with the original tax return filed by the corporation for the tax year. The election can't be made on an amended return. Permission must be requested from the Tax Commission to change from the water's edge method to the worldwide method.

SPECIFIC INSTRUCTIONS

To the extent that amounts listed for water's edge filers are different than the amounts listed for worldwide filers, separate instructions are listed.

ADDITIONS

LINE 1 INCOME FROM UNITARY FOREIGN SUBSIDIARIES
Water's Edge Filers. If you are a water's edge filer, disregard this line and go to line 2.

Worldwide Filers. The income of a foreign affiliate included in a consolidated federal return is included on line 11, Form 41.

If foreign affiliates aren't included in a consolidated federal return, the corporation can select one of the following options. The option selected must be used for all foreign affiliates not included in a consolidated federal return and must be adjusted for the Idaho additions and subtractions listed on Form 41.

Option 1. Enter the net income before income taxes stated on each affiliate's profit and loss statement prepared for the United States Securities and Exchange Commission (SEC). If the profit and loss statement isn't filed with the SEC, enter the net income or loss before income taxes reported on the profit and loss statement prepared for reporting to shareholders that is subject to review by an independent auditor.

Option 2. The net income or loss reported on the profit and loss statements may be adjusted to tax accounting standards as would be required by the IRC if the corporation were incorporated in the United States. If a corporation chooses to make the book to tax adjustments, all book to tax adjustments must be made for all unitary foreign corporations not included in the consolidated federal return. The book to tax adjustments must be consistently applied each year the group files a worldwide return.

Include a schedule of the foreign affiliate income by corporation. Also include schedules of the book to tax adjustments, if any.
