# UPDATES FOR 2012

## TAX RATE REDUCED

For tax years beginning on and after January 1, 2012, the maximum corporate tax rate has been reduced from 7.6% to 7.4%.

## CONFORMITY TO INTERNAL REVENUE CODE (IRC)

Idaho conforms to the IRC as of January 1, 2012. Idaho doesn't conform to bonus depreciation for assets acquired after 2009.

## FORMS

Idaho Form 55 Credit for Qualifying New Employees may be used for employees hired through April 14, 2011. For employees hired after April 14, 2011, Idaho Form 72 Idaho Hire One Act Credit must be used.

## NONRESIDENT OWNERS OF A PASS-THROUGH ENTITY (PTE) THAT IS TRANSACTING BUSINESS IN IDAHO

An estate, trust, partnership or S corporation transacting business in Idaho must file a composite return or do backup withholding to report the Idaho source distributive income for nonresidents unless the individual files an Idaho Nonresident Owner Agreement or is an owner for which the PTE is not required to withhold.

If the pass through entity files a composite return, the income and tax allocated to the nonresident will be reported to the nonresident on their Idaho K-1. The nonresident then has the option of filing an Idaho nonresident return, reporting the allocated income and any other Idaho income, and claiming the tax paid as a credit.

# GENERAL INFORMATION

## AMENDED RETURNS

If you discover an error on your return after it is filed, use Form 65 to amend your return. Check the box at the top of the form and enter the reason for amending. Complete the entire form using the corrected amounts.

If you amend your federal return, an amended Idaho income tax return must be filed. The statute of limitations for receiving a refund is three years from the due date of the return or the date the return was filed, whichever is later.

If you are amending a return for tax years beginning prior to 2001, complete a new return using the corrected numbers on the form for the applicable year. Write AMENDED at the top of the form and include an explanation of why the return is being amended.

Amended returns claiming refunds that aren't filed on the form for the applicable year will be returned to the taxpayer.

## ASSEMBLING THE RETURN

To ensure that your return is correctly processed, include all forms and schedules in the following order:

1. Form 65, pages 1 and 2
2. Form 42
3. Form 75
4. Form 44
5. Forms ID K-1
6. Additional schedules in alphabetical order
7. Additional forms in numerical order
8. Complete copy of federal return

## BONUS DEPRECIATION

### For Property Acquired Prior To 2008 or After 2009

If you claimed bonus depreciation for federal purposes:

- Complete and include a separate federal Form 4562 or detailed computation for Idaho depreciation purposes as if you hadn't claimed the special depreciation allowance.
- Use the Idaho depreciation amounts to compute the Idaho adjusted basis and any gains or losses from the sale or exchange of the property.
- Enter the differences between the Idaho and federal depreciation amounts, and gains and losses from sales or other exchanges of the property on the bonus depreciation line.

### For Property Acquired After 2007 and Before 2010

Idaho conforms to the federal bonus depreciation provisions. The amounts you use for federal will also be used for Idaho. No additional forms or computations are needed for Idaho.

## CHECK-THE-BOX REGULATIONS

Idaho follows the federal entity classification (check-the-box) regulations. Therefore, if an entity is classified or taxed as a partnership for federal income tax purposes, it will be treated as a partnership for Idaho income tax purposes.

## E-FILE YOUR RETURN

The Tax Commission, with the IRS, provides electronic filing of federal and state partnership returns of income. The Federal/State MeF E-File Program provides one-stop electronic filing of returns in a single transmission. Taxpayers who file online get faster refunds, make fewer errors, and receive confirmation that their return was received. To e-file your return, visit our website at [tax.idaho.gov](http://tax.idaho.gov) to find a commercial software package for a fee or ask your tax preparer to e-file your return.

## ELECTRONIC FUNDS TRANSFERS

Payments of \$100,000 or more must be paid by electronic funds transfer. If you are making an electronic funds transfer for the first time, contact the Tax Commission at (208) 334-7660 or (800) 972-7660 for further information.

## EXTENSION OF TIME TO FILE

If you can't file your return by the due date, Idaho allows you an automatic six-month extension of time to file. To avoid paying a penalty, the amount of tax payments you have made must be at least 80% of the current year's tax liability or 100% of the total tax reported last year. Use Form 41ES to make your payment.

Even though an extension gives you more time to file, the tax is due on the original due date of the return. You must pay interest on any tax paid after the due date.

## FEDERAL AUDIT

If your federal taxable income or tax credits change because of a federal audit, you must send written notice (including an amended return) to the Tax Commission within 60 days of the final federal determination. You must include copies of all schedules supplied by the IRS.

If you owe additional Idaho tax and don't send written notice within 60 days, a 5% negligence penalty will be imposed. Interest applies on any tax due.

If the final federal determination results in an Idaho refund, you must file an amended Idaho income tax return with the written notice. See Amended Returns on this page. If the statute of limitations is closed, you have one year from the date of the final determination to file for the refund.

## FORMS

Forms are available at all Tax Commission offices or may be obtained:

- By Internet. Download, view, or print Idaho income tax forms and publications from our website at [tax.idaho.gov](http://tax.idaho.gov). Some forms can't be saved electronically at this time.
- By calling (208) 334-7660 in the Boise area or (800) 972-7660.
- By mail. Write to:

Idaho State Tax Commission  
PO Box 36  
Boise ID 83722-0410

You may use photocopies of these tax forms. Your copy must be legible.

## INTEREST

Interest applies on delinquent tax from the due date of the return until the tax is paid at the rate of 3% per year (rate effective for 2013).

## PAYMENTS

Make your check, cashier's check, or money order payable to the Idaho State Tax Commission and include it with the tax return. Write your federal employer identification number on your check, cashier's check, or money order.

To pay by credit card, debit card, or e-check, visit our website at [tax.idaho.gov](http://tax.idaho.gov).

For payments of \$100,000 or more, see Electronic Funds Transfers.

## PENALTIES

A penalty will be imposed against a partnership that is required to file, but fails to file, an Idaho return. The penalty is \$10 times the number of persons who are partners during any part of the tax year for each month the return isn't filed, up to five months.

# GENERAL INFORMATION

Penalties may be imposed on the tax due as follows:

- 0.5% per month or fraction of a month to a maximum of 25% for failure to pay the tax due (if return is filed)
- 2% per month or fraction of a month for failure to meet the extension criteria (the return must be filed by the extended due date and taxes must be paid by the earlier of the date the return is filed or the extended due date)
- 5% per month or fraction of a month to a maximum of 25% for failure to file the return timely
- 5% for negligence or disregard of rules
- 10% for substantial understatement of tax
- 50% for filing a false or fraudulent return

The minimum penalty is \$10.

## PERMANENT BUILDING FUND TAX

A partnership is required to pay the PBF for each nonresident individual partner who meets the Idaho filing requirement and has the partnership pay the tax on his share of the income. A nonresident individual meets the Idaho filing requirement with gross income from Idaho sources in excess of \$2,500.

## ROUNDING

Round the amounts on the return to the nearest whole dollar.

## SIGNATURE

The return must be signed by an authorized individual on behalf of the partnership.

## TAX DUE FOR NONRESIDENT INDIVIDUAL PARTNERS

A nonresident individual partner may have the partnership pay the tax on his income from that partnership. This income includes the individual's share of income, loss, and deduction.

Not all deductions allowed on an individual return are allowed when a partnership pays the tax for an individual partner. For example, partnerships aren't allowed deductions for carryovers or carrybacks of net operating losses, capital losses or personal exemptions.

The partnership will be taxed on this income at the corporate rate of 7.4%.

## TAX PERIOD/YEAR COVERED BY RETURN

Use the 2012 form to file your tax return for calendar year 2012 or the fiscal year beginning in 2012.

## TAX PREPARER CONTACT BOX

This box applies only if you paid a tax preparer to complete your return. If you check the box, you are authorizing the Tax Commission to discuss your return with the paid preparer identified on your return.

You are also authorizing the paid preparer to:

- Give the Tax Commission any information that is missing from your return, and
- Call the Tax Commission for information about the processing of your return or the status of your refund or payments.

You are not authorizing the paid preparer to receive any refund check, bind you to anything including any additional tax liability, or otherwise represent you before the Tax Commission.

This authorization is valid for up to 180 days from the date the Tax Commission receives the return. If you want the Tax Commission to contact you rather than your preparer, leave the box blank.

## GENERAL INFORMATION FOR MULTISTATE & MULTINATIONAL TAXPAYERS

The following instructions apply to partnerships that operate in Idaho and another state or country (multistate/multinational taxpayers). These instructions also apply to partnerships that are members of a partnership operating in Idaho and another state or country.

### ALLOCATION AND APPORTIONMENT OF INCOME

**Business Income.** Business income includes income from transactions or activity in the regular course of your trade or business. Business income also includes income from tangible or intangible property if the acquisition, management, or disposition of the property is an integral part of your regular trade or business operations. Business income may result even though the income was derived from an occasional or extraordinary transaction. All business income must be apportioned using the apportionment formula.

**Nonbusiness Income.** Nonbusiness income is all income other than business income and must be allocated, not apportioned. Allocation is the assignment of nonbusiness income to a specific state.

**Apportionment Formula.** The apportionment formula consists of three factors: property, payroll, and sales. These three percentages are averaged to arrive at the Idaho apportionment factor. For most taxpayers, the sales factor is double weighted.

Electrical and telephone utilities must use a single-weighted sales factor. See the instructions for Form 42.

### EXCEPTIONS TO APPORTIONMENT FORMULA

The apportionment formula is presumed to be the correct way to apportion business income. However, if the allocation and apportionment provisions don't fairly represent your business activity in Idaho, you can ask the Tax Commission for permission to use separate accounting, exclude one or more factors, or include one or more additional factors.

**Separate Accounting.** Separate accounting means allocating income and related expenses to the state where the activity occurred. You must receive prior approval from the Tax Commission to use separate accounting. Permission won't be granted just because you can identify income and expenses by location or because the standard apportionment formula results in more tax to Idaho than another method.

In your request to use separate accounting you must explain in detail why the standard allocation and apportionment provisions don't fairly represent the extent of your business activity in Idaho. You must also show that your business has unique and nonrecurring situations that produce inconsistent results. If you have a unitary business, the law assumes that unitary filing and apportionment more accurately reflects your income, unless you can prove otherwise.

You must submit a written request at least 30 days prior to the due date for filing the return, not including extensions. Mail your request to:

Income Tax Policy  
Idaho State Tax Commission  
PO Box 36  
Boise ID 83722-0410

# GENERAL INFORMATION

**Exclusion of a Factor.** If any of the factors (property, payroll, or sales) don't apply to your business, use the remaining factors to compute the Idaho apportionment factor. To determine the average percentage, divide only by the number of factors used.

For example, if your partnership has no employees anywhere, the number of factors is reduced by one.

## MODIFIED FACTORS FOR CERTAIN INDUSTRIES

The following businesses must use special rules in computing the apportionment factors:

- Airlines
- Trucking Companies
- Railroads
- Construction Contractors

- Television and Radio Broadcasters
- Publishers
- Financial Institutions

See the instructions for Form 42.

## MULTISTATE CORPORATE MEMBERS OF PARTNERSHIPS

If a corporation required to file an Idaho income tax return is a member of an operating partnership or joint venture, the corporation must apportion its share of the partnership's business income or loss along with all other net business income or loss of the corporation. The corporation's share of the partnership's property, payroll and sales is determined in the same proportion as the partnership's income is distributed and must be included in the corporation's apportionment computation.

# FORM 65 SPECIFIC INSTRUCTIONS

Instructions are for lines not fully explained on the form.

General information instructions beginning on page 1 also apply to this form.

The partnership must provide each partner with an Idaho Form ID K-1. This form shows the partner's distributive share of Idaho additions, subtractions, and credit information. For partners who aren't individuals, the Form ID K-1 also provides apportionment factor numerator and denominator amounts that will be needed to complete their Idaho income tax return. Form ID K-1 also identifies the distributive share of gross income to help determine Idaho filing requirements of individual partners. All Forms ID K-1 and a complete copy of federal Form 1065, including all federal Schedules K-1, must be included with the Idaho Form 65.

other income reportable to Idaho and who report partnership income on the partnership return.

If lines 36 and 37 include separately stated items from lines 13, 20, and 31, include the amounts reported by the partners on line 39.

## CREDITS

Except for the Hire One Act credit, credits earned by the partnership are passed through to each partner based on that partner's distributive share of partnership profits. When a partnership has a fiscal year end other than that of the partner, the credit passes through in the same period that the partnership income or loss is reported by the partner for federal tax purposes.

The partnership must provide each partner with an Idaho Form ID K-1. This form shows the partner's distributive share of credits earned, credits subject to recapture, and contribution information needed to calculate certain credits. Each partner uses this information to determine the amount of Idaho credit allowed, recapture required, and credit carryovers that exist on the partner's Idaho income tax return. Credits reported by each partner are subject to the limitations applicable to that partner. Copies of Form ID K-1 must be included with the Idaho Partnership Return of Income for the year in which the credit is earned.

If an individual partner has his share of the income taxed on the partnership's return, the tax may be offset by that partner's distributive share of credits. Credits applied to this tax are computed based on the credit limitations applicable to partnerships. For example, if a partnership pays the tax for three individual partners, the amount of credit for contributions to educational institutions is the lesser of the following amounts:

- 50% of the three partners' share of the amount donated,
- 50% of the tax computed for the three partners, or
- \$500

Credits allowed to a partner that aren't used to offset his tax can't be used to offset the tax computed for other partners. The following credits, however, are available to be transferred to another taxpayer rather than used by the partner who earns the credit:

- Broadband equipment investment credit
- Incentive investment tax credit

To claim a credit you acquired through a transfer, you must include a copy of the Idaho Statement of Credit Transfer, Form 70, with each return on which you are claiming transferred credit.

**LINE 42 CREDIT FOR CONTRIBUTIONS TO IDAHO EDUCATIONAL ENTITIES**

Donations made by a partnership to a qualified educational entity may qualify for a tax credit. Donations of goods or services don't qualify.

If the partnership is paying the tax for one or more partners, determine each partner's distributive share of the following amounts and enter the total of these amounts on line 42.

- If the partnership claimed the credit for qualifying new employees, the applicable distributive share of the amount from Form 55, Part II, line 5, or
- If the credit for qualifying new employees is not being claimed, the smallest of:
  - One-half of the amount donated,
  - 50% of the tax on line 41, or
  - \$500

# FORM 65

Don't enter the total credit earned by the partnership if the partnership isn't paying the tax for all the partners.

## LINE 43 CREDIT FOR CONTRIBUTIONS TO IDAHO YOUTH AND REHABILITATION FACILITIES

Donations made by a partnership to a qualified center for independent living, to a youth or rehabilitation facility or their foundation, or to a nonprofit substance abuse center licensed by the Idaho Department of Health and Welfare, may qualify for a tax credit.

If the partnership is paying the tax for one or more partners, determine each partner's distributive share of the following amounts and enter the total of these amounts on line 43.

- If the partnership claimed the credit for qualifying new employees, the applicable distributive share of the amount from Form 55, Part II, line 9, or
- If the credit for qualifying new employees is not being claimed, the smallest of:
  - One-half of the amount donated,
  - 20% of the tax on line 41,
  - \$100, or
  - The tax on line 41 less the amounts on line 42 and Form 44, Part I, line 1

If you computed use tax on Form 75, add it to the use tax on other purchases and enter the total on line 50.

If you have a sales or use tax account, don't enter your sales or use tax on this line, but continue to report the tax on these purchases on your sales and use tax returns.

## REFUND OR PAYMENT DUE

### LINE 60 PENALTY AND INTEREST

**Penalty:** If the partnership files a return after the due date or fails to pay the required amount by the due date, a penalty may be due. To avoid paying any late filing or late payment penalty, the partnership must:

- Pay by the original due date at least 80% of the tax due on the return or 100% of the total tax reported last year.
- File the return by the extended due date and pay the tax due by the earlier of the date the return is filed or the extended due date.

If the partnership pays at least 80% of the tax due on the return or 100% of the total tax reported last year by the original due date, but fails to file the return by the extended due date or pay the remaining tax by the earlier of the date the return is filed or the extended due date, the following penalties will apply:

- If the return is filed on or before the extended due date, a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to date of payment.

- If the return is filed after the extended due date, a 5% per month late filing penalty will be computed on tax due from the extended due date to the earlier of the date the return is filed or the date the tax is paid, plus a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date the tax is paid if the tax is paid after the return is filed.

If the partnership doesn't pay at least 80% of the tax due on the return or 100% of the total tax reported last year by the original due date, the following penalties will apply unless the payment required to satisfy the extension criteria is \$50 or less:

- If the return is filed by the original due date, a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date of payment.
- If the return is filed on or before the extended due date, a 2% per month extension penalty will be computed on tax due from the original due date to the earlier of the date the tax is paid or the date the return is filed, plus a 0.5% per month late payment penalty will be computed on tax due from the date the return is filed to the date the tax is paid if the tax is paid after the return is filed.
- If the return is filed after the extended due date, but the tax is paid on or before the extended due date, a 2% per month extension penalty will be computed on tax due from the original due date to the date the tax is paid.
- If the return is filed and the tax is paid after the extended due date, the maximum 25% penalty will apply.

The minimum penalty is \$10. The maximum penalty is 25% of tax due.

# INSTRUCTIONS FOR FORM 42

## IDAHO APPORTIONMENT AND COMBINED REPORTING ADJUSTMENTS

Part I of this form provides the computation of the Idaho apportionment factor and is to be used by taxpayers who have income from business activity that is taxable in Idaho and another state or country.

If the taxpayer is a partner in another partnership, the taxpayer must take into account the activity of the partnership in determining whether the taxpayer has income from business activity that is taxable in Idaho and another state or country. Include the taxpayer's share of the partnership's property, payroll, and sales numbers from Form ID K-1 in the amounts reported on Form 42.

Partnerships don't use Part II.

### PART I APPORTIONMENT FORMULA

#### GENERAL INFORMATION

If the taxpayer transacts business in Idaho and another state or country, include a schedule showing apportionment detail by company.

#### PROPERTY FACTOR

The property factor is a fraction. The numerator is the average value of real and tangible personal property owned or rented and used in Idaho during the tax year to produce business income. The denominator is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax year to produce business income. Property used in the production of nonbusiness income is excluded from the factor.

Property is included in the factor if it is actually used or capable of being used during the tax year in the regular course of the trade or business of the taxpayer. Property under construction is excluded.

Property owned by the taxpayer is valued at its original cost. Original cost is the basis of the property for federal income tax purposes (prior to any federal adjustments) when it was acquired by the taxpayer and adjusted for subsequent capital additions or improvements, special deductions or partial disposition because of sale, exchange, abandonment, etc. Depreciation doesn't reduce original cost.

The average value of property owned by the taxpayer is computed by averaging the values at the beginning and ending of the tax year. The Tax Commission may require or allow the averaging of monthly values to properly reflect the average values.

Property rented is valued at eight times the net annual rental rate. The net annual rental rate for any item of rented property is the total rents paid for the property, less the aggregate annual subrental rates paid by subtenants. Subrents aren't deducted when the subrents are business income.

#### SALES FACTOR

The sales factor is double weighted for all taxpayers except electrical and telephone utilities. Electrical and telephone utilities use a single-weighted sales factor.

The sales factor is a fraction. The numerator is the gross receipts derived during the tax year from transactions and activities attributable to Idaho in the regular course of the taxpayer's trade or business. The denominator is the total gross receipts derived during the tax year from transactions and activities everywhere in the regular course of the corporation's trade or business. Receipts derived from the production of nonbusiness income are excluded from the sales factor.

Sales includes all gross receipts derived from transactions and activities in the regular course of trade or business. Gross receipts means gross sales, less returns and allowances. Gross receipts from sales of tangible personal property are assigned to Idaho if:

- property is delivered or shipped to a purchaser in Idaho regardless of F.O.B. point or other conditions of sales; or
- property is shipped from an office, store, warehouse, factory, or other place of storage in Idaho and the taxpayer isn't taxable in the state of the purchaser (throwback sales) or the purchaser is the U.S. Government.

Sales also includes gross receipts from services and all other gross receipts such as interest, dividends, rents, royalties, gross receipts from the sale of property, and other income derived by the taxpayer in the regular course of business. If gross receipts don't fairly represent the extent of your business activity in Idaho, you may petition, or may be required, to use another method to obtain an equitable result. Income from services is attributable to this state to the extent that the services are performed in Idaho.

Although the following amounts may be business income, gross receipts don't include such items as the repayment, maturity, or redemption of the principal of a loan, bond, mutual fund or certificate of deposit or similar marketable instrument, the principal amount received under a repurchase agreement, the proceeds from issuing your own stock or from the sale of treasury stock, damages or other amounts received from litigation, property acquired by an agent on behalf of another, tax refunds or other tax benefit recoveries, pension reversions, contributions to capital, income from the forgiveness of indebtedness, and amounts realized from exchanges of inventory that aren't recognized by the IRC.

#### PAYROLL FACTOR

The payroll factor is a fraction. The numerator is the compensation paid in Idaho during the tax year to produce business income. The denominator is the total compensation paid during the tax year to produce business income. Compensation connected with the production of nonbusiness income is excluded from the payroll factor.

The total amount paid to employees is determined on the basis of the taxpayer's accounting method. Under the accrual method, all compensation properly accrued is deemed to have been paid. If you are required to report compensation under the cash method for unemployment compensation purposes, you may use the cash method to include compensation paid to employees in the payroll factor.

Compensation means wages, salaries, commissions, and any other form of payment to employees for personal services. Payments made to an independent contractor, or any other person not properly classifiable as an employee, are excluded.

Compensation is paid in Idaho if any one of the following tests are met:

- The individual's service is performed entirely within Idaho.
- The individual's service is performed both in and outside Idaho but the service performed outside Idaho is incidental to the individual's service in Idaho.
- Some of the service is performed in Idaho and the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in Idaho.
- Some of the service is performed in Idaho and the base of operations, or the place from which the service is directed or controlled, isn't in any state in which some part of the service is performed, but the individual's residence is in Idaho.

## FORM 42

### MODIFIED FACTORS FOR CERTAIN INDUSTRIES

Idaho has adopted the Multistate Tax Commission (MTC) regulations for the following special industries. Examples of the computations of these factors are found in the applicable MTC regulations on the Internet. The Tax Commission website has a link to these regulations at [tax.idaho.gov](http://tax.idaho.gov).

#### Airlines

If you are in the business of transporting passengers, freight or mail by air, your apportionment factor should reflect the movement of your transportation equipment and personnel. Include transportation revenue, property ready for flight, and transportation payroll in the Idaho numerators based on the percentage of Idaho departures of aircraft weighted as to the value of aircraft by type to the total departures similarly weighted.

The value of nonflight property and nonflight payroll will be allocated to the state based on the general apportionment rules.

#### Railroads and Trucking Companies

If you are in the business of transporting passengers, freight, or mail by motor carrier or rail, your apportionment factor should reflect the movement of your transportation equipment and personnel. Include the transportation revenue, property, and payroll in the Idaho numerators based on the percentage of miles traveled in Idaho to miles traveled everywhere.

Other revenue, fixed property, and compensation of employees assigned to fixed locations are included in the factors based on the general apportionment rules. Per diem and mileage charges paid or received for the temporary use of railroad cars shouldn't be included in the sales or property factors.

#### Construction Contractors

You must use the same long-term contract accounting method for Idaho reporting purposes that you used for federal reporting purposes. If the percentage of completion method is used, the following special rules apply in addition to the general property, payroll, and sales factor rules.

The property factor denominator includes the average value of the taxpayer's cost of construction in progress (including materials and labor) to the extent the costs exceed progress billings. The portion of this amount attributable to construction projects in Idaho is included in the Idaho numerator. If progress billings exceed construction costs, don't include any value in the property factors for the taxpayer's equity in the project.

The sales factor includes only the portion of the gross contract price which corresponds to the percentage of the entire contract which was completed at the end of the tax year. For example, if the project was 30% complete at the end of the tax year, 30% of the bid price should be included in the gross receipts. Gross receipts from a construction project are attributable to Idaho if the construction is located in Idaho. Gross receipts from a construction project located partially in Idaho are included in the numerator based on ratio of construction costs for the project in Idaho for the tax year to the total of construction costs for that project for the tax year.

Compensation paid for work on a particular construction project is included in the payroll factor even though capitalized into the cost of construction. Compensation is attributable to the state where most of the employee's service is performed, regardless of where reported for unemployment tax purposes.

#### Publishers

If you are in the business of publishing, selling, licensing or distributing books, newspapers, magazines, periodicals, trade journals or other printed material, include outer-jurisdictional property in the property factor whether owned or rented if used in your business. Outer-jurisdictional property includes such items as orbiting satellites and undersea transmission cables

that aren't physically located in any particular state. The portion of outer-jurisdictional property attributable to Idaho is computed using the ratio of Idaho usage to usage everywhere.

The sales numerator includes gross receipts from the sale of printed materials delivered or shipped to a purchaser or subscriber in Idaho. Gross receipts from the advertising and the sale, rental, or other use of customer lists are included as Idaho sales as determined by a circulation factor.

If the purchaser or subscriber is the U.S. Government or you aren't taxable in the state, the gross receipts are attributable to Idaho if the printed material or other property is shipped from a business location in Idaho.

#### Broadcasters

If you are in the business of conducting television or radio broadcasts, either through a network or through an affiliated, unaffiliated, or independent television or radio broadcasting station, your apportionment factor should exclude outer-jurisdictional film and radio programming property. Outer-jurisdictional property includes orbiting satellites and undersea transmission cables that aren't physically located in any particular state. Film programming means performances, events, or productions telecast, live or otherwise, on television. It includes news and sporting events in the format of a motion picture, a video tape, or other medium. Radio programming means all performances, events, or productions broadcast live or otherwise on radio. It includes commercial, educational, or artistic works, in the format of an audio tape, disc, or other medium.

Audio or video cassettes, discs, or similar medium containing film or radio programming that is intended for sale or rental for home viewing or listening is included in the property factor at original cost.

The value of property located or used in Idaho for part of the tax year is included in the Idaho property numerator based on the ratio that the number of days the property is located or used in Idaho bears to the total number of days you owned or rented the property during the tax year.

Idaho sales include advertising revenue from live television, film, or radio programming in release to or by television and radio stations located in Idaho and receipts from live telecasts, films, and radio programs based on the audience factor.

The payroll factor includes residual and profit participation payments paid to employees, directors, actors, newscasters, and other individuals in a role of employee. Include amounts paid to an individual, corporation, or other business entity for providing the services of directors, actors, newscasters, and other talent for a live television broadcast, film, or radio program if payments were at least 25% of total compensation paid to employees and the extent of your business activity in Idaho wouldn't be fairly represented by not including the amounts. The portion of these amounts attributable to Idaho is determined according to the general apportionment rules.

#### Financial Institutions

The apportionment factor of a financial institution should reflect the business of extending credit through loans and credit cards by including the value of these intangibles in the property factor.

A financial institution is a business that predominantly deals in money or moneyed capital in substantial competition with the business of national banks. Predominantly means more than 50% of gross income is attributable to dealings in money or moneyed capital. Money or moneyed capital includes coin, cash, currency, mortgages, deeds of trust, conditional sales contracts, loans, commercial paper, installment notes, credit cards, and accounts receivable.

# FORM 42

A business is presumed to be a financial institution if it is one of the following:

- A corporation registered under state law as a bank holding company or registered under the Federal Bank Holding Company Act, as amended, or registered as a savings and loan holding company under the Federal National Housing Act, as amended
- A national bank organized under the National Bank Act
- A savings association or federal savings bank as defined in the Federal Deposit Insurance Act
- A bank or thrift institution incorporated or organized under the laws of any state
- A corporation organized under the provisions of Title 12 U.S.C. §§ 611 to 631
- An agency or branch of a foreign depository as defined in Title 12 U.S.C. § 3101
- A corporation whose voting stock is more than 50% owned by an entity presumed to be a financial institution (insurance companies excluded)
- A corporation that in the current year and immediately preceding two years, derived more than 50% of its total gross income for financial accounting purposes from finance leases

In addition to the property included under the standard property factor as discussed on page 11, the property factor must also include the average value of loans and credit card receivables. Loans and credit card receivables are valued at their average outstanding principal balance, without regard to any reserve for bad debts.

Loans and credit card receivables are considered located in Idaho if they are properly assigned to a regular place of business in this state; that is, if the loan has a preponderance of substantive contacts with that place of business. Substantive contacts include solicitation, investigation, negotiation, approval, and administration.

There are also special sales factor rules for attributing receipts to a state. The payroll factor is computed the same as under the standard apportionment rules. See page 11.
