

## **IAAO Workshop 600 – Principles & Techniques of Cadastral Mapping**

Principles and Techniques of Cadastral Mapping is intended to be a comprehensive, interactive program to introduce entry-level map maintenance personnel and assessment technicians to the field of cadastral mapping. Students are presented basic mapping principles and techniques and are expected to demonstrate basic skills that will allow them to plot deeded descriptions in both the metes and bounds land description system and the Public Land Survey System. Principles and Techniques of Cadastral Mapping utilize lectures, classroom discussion, and exercises to emphasize the main concepts and procedures taught in the course

**Recommended:** STC Basic Mapping and IAAO Course 101
