

Advanced Topics in GIS

This hands-on course will cover a range of topics including advanced editing tools, using a parcel construction database, spatial alignment tools, labeling, map books, topology checks and working with GPS data. This class will also help you gain some basic model builder skills.

This class is appropriate for anyone with one or more years of GIS experience, or anyone who has completed STC's "Introduction to GIS" or similar course.

- Instructor: Charlla Adams, Geospecialists LLC
Dates: Wednesday, July 29 – Friday, July 31 (a.m.)
Location: Classroom B at Northwest Nazarene University (NNU), in Central Plaza – Washington Group Complex
Hours: 18
Note: This class is limited to 12 students.
