

Advanced Topics in ArcGIS

This hands-on course will expand on some of the topics covered in the “Introduction to ArcGIS” class. Students are encouraged (but not required) to bring some of their own data.

Topics include:

- Basic COGO editing in GIS
- Splitting parcels
- Performing topology checks
- Creating map books
- Using hyperlinks and attachments

Instructor: Wilma Robertson, Tax Commission

Dates: Thursday, January 12 – Friday, January 13 (a.m.)

Location: Classroom B at NNU, in Central Plaza – Washington Group Complex

Hours: 11

Note: This class is limited to 18 students.
