

The American Cadastre

This two-and-a-half day workshop is about **The American Cadastre**. Day one is “**The History of Land Ownership in the United States.**” It covers the who, what, where, why, and how of owning real property. Topics include:

- Indian vs. English philosophy of property ownership
- History of American surveying techniques
- Quit rents - the first appraisals of property
- Property ownership theory
- Founders of the PLSS

For days two and three (half day), “**The Principles of Property Law and Surveying for Appraisers and Cadastral Mappers**” is a university level workshop. Topics include:

- Interpreting real property law
- Formal requirements for deeds
- Recording land titles
- The role county appraisers play in the national economy
