

## **Mapping / GIS Codes & Rules**

This class will introduce participants to Idaho statutes and administrative rules as they pertain to cadastral mapping, district orders, ordinances, and annexation of property. The class is an overview of how Idaho statutes and administrative rules influence cadastral mapping methodologies. The course will include statutes and rules pertaining to ownership, plats, rights of way, surveying, reproduction of records, and ordinances. Students are encouraged to interact and ask questions of the instructor.
