

Tax Map and GIS Appraisal Applications

Introduction to TaxMap & GIS Appraisal applications is a hands-on class that will introduce students to TaxMap which is a great alternative to some over-the counter, desktop-based GIS applications. The first part of this class will focus on the basic concepts of how to deploy the TaxMap application on your computer, build a map project, and load data and extensions. The last part of this class will focus on webmap/mobile technology, giving the student the tools to create a basic webmap in class.

Instructor: Kevin Jones, Tax Commission

Dates: Thursday, January 9

Location: Conference room 5CR3 (fifth floor) in Plaza IV –
Washington Group Complex (Tax Commission office)

Hours: 7
