

Tracking Tracts and Plotting Plats...It's not always easy

We track their tracts and plot their plats...but it's not always easy.

Someone from the Treasurer's office, another to discuss how HOE is handled and other administrative issues, a deed processor, a surveyor, and a title company representative will all be there to discuss how they work the difficult deeds that come across our desks. They will also give you a tour of their deed processing and GIS offices. Topics will include:

- What constitutes a contract?
- How do we handle affidavits in lieu of probate?
- When is a deed effective...at the time of the signing or when it is recorded?
- Please join us in this Round Table discussion and bring your questions.

Instructors: Anne Kawalec, Land Records Supervisor and Donald Watts, Land Records Analyst, Ada County

Date: Tuesday, July 23

Location: 190 E Front Street, Suite 107, Assessor' Conference Room, Boise

Hours: 7
