

Webmap using Google's JavaScript API

This course is for students interested in creating and customizing a free interactive webmap using Google's cloud. This class uses Google's JavaScript API. We will show you how to build a basic map in less than 10 minutes and will spend the rest of the class customizing and updating it. GIS data for this map does not have to be registered with a company.

Recommended: Skill level: intermediate to advanced

Instructor: Kevin Jones, Tax Commission

Date: Thursday, January 14 (p.m.)

Location: Central Plaza Training Room in Central Plaza – Washington Group Complex

Hours: 4

Note: This class is limited to 12 students
