

AS400 – Common Reports and Basic Query Class

The first day of this class we will review the most common reports for AS400 day-to-day work, as well as major reports used in the Assessment and Abstract checklists. The second day will consist of a basic query class to show where some of the AS400 reports get their data, and how to research and resolve balancing questions and other common issues. We will contact participants prior to this class to ensure query examples and exercises are customized to better meet the students' expectations.

Instructors: Trudy Charles and Kathy Pridgen, Tax Commission

Dates: Tuesday, January 10 – Wednesday, January 11

Location: Conference room 1CR5 (first floor) in Plaza IV - Washington Group Complex (Tax Commission office)

Hours: 14
