

Valuation of Barndominiums

This workshop will provide some guidance and suggestions on the process of analysis and valuation of metal buildings converted to living areas - what we call Barndominiums. These are structures that appear to be metal clad farm buildings, but part or all the structure has been finished on the interior and used as living area. Some are used as temporary living area while the owners construct a new stick-built home, while others are built as a permanent residence. The framing can be pole or steel.

Instructor: Rick Stuart, CAE
Date: Wednesday, July 27
Location: Peregrine conference room – Wyndham Garden Boise Airport
Hours: 7
