

## **STC Basic Mapping**

This course is an introduction to cadastral mapping. It also includes an introduction to surveys used in the Assessor's office, such as mineral, homestead, route, hydrographic and railroad surveys. Topics include:

- Idaho mapping laws
- Manual drafting techniques
- Conveyances
- Deed processing
- PLSS, metes and bounds, state plane coordinate system
- Idaho parcel numbering systems

Successful completion of this course meets one of Idaho's three requirements for becoming a "Certified Cadastral Specialist."
