

Craig, per our conversation earlier please I am attaching a scan of the area in question. The property owners within the area highlighted in black claim that they have never annexed into the district but the State Tax Commission boundary shows them to be in it. Can you please research this and get back to me as soon as possible.

Also, the area highlighted in red just north of the area in black is known as Chanticleer Estates. Both the district and the owners within this subdivision believe they are in the district although neither has been able to provide proof. This annexation would have been in 2004, 5 or 6. Can you double check your records on this?

Thanks.
