

BEFORE THE BOARD OF DIRECTORS OF  
STAR SEWER & WATER DISTRICT,  
ADA COUNTY, IDAHO

144

IN THE MATTER OF THE INCLUSION	)	ORDER OF
OF CERTAIN REAL PROPERTY WITHIN THE	)	INCLUSION AND
STAR SEWER AND WATER DISTRICT	)	ANNEXATION
GENERALLY KNOWN AS YOUNGMAN PROPERTY	)	
	)	

THIS MATTER having come on regularly for hearing on the 23<sup>rd</sup> day of October 2015, pursuant to a petition filed with the Board of the Star Sewer and Water District (the District) on or about April 15, 2015, filed and presented by Kelly and Lara Youngman, petitioners and representatives of the real property proposed for inclusion, and pursuant to a notice by publication in The Idaho Statesman, a newspaper of general circulation within the District, on October 13, 2015 and October 20, 2015, the proof of which more fully appears in the Affidavits of Publication attached hereto as Exhibit "A." The Board has heard, considered, and passed upon any protests that were presented at or filed in writing in advance of the hearing held and conducted on October 23, 2015, as fully set forth in the proceedings of said hearing, and all of such protests are hereby overruled. No Petitioner has withdrawn his or her petition subsequent to the announcement of the conditions set forth below. Since the property proposed to be annexed was not contained in the original boundaries of the District, the Board will require that the property be annexed subject to the Conditions of Annexation attached hereto as Exhibit "B."

Upon examining the Petition for Annexation (inclusion) of Property, hearing and examining the Petitioners and examining all proof (documentary and oral) submitted for the Board's consideration, the Board found and concluded that (i) the said Petition for

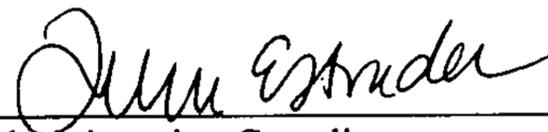

REC'D JUL 19 2016

Annexation (inclusion) of Property was in substantial compliance with the law and executed by the Petitioners and acknowledged in the manner required by law; (ii) it would be in the best interest of the District and the Property affected to annex and include the property of the Petitioners, subject to all conditions enumerated in the said Petition and as hereinafter specified; (iii) the Notice of Hearing of said Petition was given in the manner required by law; and (iv) there is not a good cause to deny the Petition for Annexation.

NOW, THEREFORE, IT IS ORDERED that it is in the best interests of the Petitioners and the District that the property (and as more specifically described in Exhibit "B" (Conditions of Annexation), attached hereto) be and the same is hereby included within the District subject to all of the (i) limitations and obligations imposed by Sections 42-3218 and 42-3220, Idaho Code, (ii) all the conditions enumerated and specified in the Petition for Annexation; and (iii) subject to all conditions specified in the Conditions of Annexation as announced and passed at the Board meeting of October 23, 2015, pursuant to the above conditions.

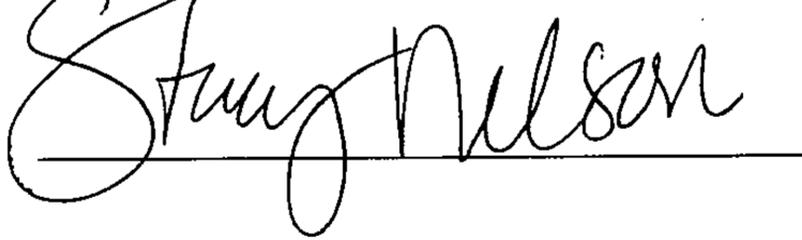

ADOPTED AND APPROVED by the Board of Directors of the Star Sewer and water District of Ada County, Idaho this 23<sup>rd</sup> day October, 2015.

**STAR, ID 836690400**

**LEGAL NOTICE**  
**NOTICE OF HEARING ON PETITIONS AND CONSIDERATION OF**  
**INCLUSIONS FOR THE ANNEXATION OF PROPERTY INTO THE**  
**STAR SEWER & WATER DISTRICT**

NOTICE IS HEREBY GIVEN that the following listed property under consideration by the Board of Directors for inclusion into the District and the petitions of the following listed property owner for the annexation of certain areas into the Star Sewer and Water District, subject to conditions imposed by the District's Board of Directors, will be heard by the Board on October 23, 2015 at 11:00 A.M. Said hearing will be held at the Star Sewer and Water District, located at 100 S. Star Rd., Star, Idaho.

Any person or persons opposing this annexation shall show cause, in writing, if any they have, why the petition and/or inclusions should not be granted. Written comments will be accepted during the regular working hours of Star Sewer and Water District until 4:30 p.m. on October 22, 2015.

The failure of any person to show cause, in writing, shall be deemed as an assent to the annexation of such lands into the District as prayed in the petition(s) and those properties listed and under consideration. The Board shall have full discretion to determine if the petition(s) and/or inclusions shall be granted. The real property that has been petitioned for inclusion and annexation and are being considered for inclusion into the Star Sewer and Water District, situated in Ada County, Idaho, is described more particularly as follows and the proposed annexation agreements are with:

**Petitioner: Kelly and Lara Youngman**

**EXHIBIT A**

**Parcel I:**

A tract of land situated in the Southeast quarter of Section 5, Township 4 North, Range 1 West, Boise Meridian, Ada County, Idaho, described as follows:

Commencing at a brass cap monumenting the South quarter corner of said Section 5; thence North 00° 12' 49" East a distance of 1327.28 feet along the center of section line to a steel pin monumenting the center South 1/16th corner of said Section 5; thence

South 89° 27' 10" East a distance of 1320.43 feet along the 1/16th line to a steel pin monumenting the Southeast 1/16th corner of said Section 5; thence

South 00° 11' 31" West a distance of 602.69 feet along the 1/16th line to a steel pin; said pin being the Real Point of Beginning; thence

North 00° 11' 31" East a distance of 147.41 feet along the 1/16th line to a point; thence

South 85° 59' 40" East a distance of 295.50 feet to a point; thence

South 00° 11' 31" West a distance of 147.41 feet to a point; thence

North 85° 59' 40" West a distance of 295.50 feet to the Real Point of Beginning.

**Parcel II:**

Together with an easement for road rights-of-way described as follows:

Commencing at the Southeast corner of Section 5, Township 4 North, Range 1 West, Boise Meridian; thence North 89° 12' 1" West along the Southerly section line 909.59 feet to a point, said point being the Real Point of Beginning; thence

North 89° 12' 1" West along the Southerly section line a distance of 33 feet to a point; thence

North 2° 00' 45" East 706.21 feet to a point; thence

North 85° 59' 40" West 401.76 feet to a point; thence

North 0° 11' 31" East 20 feet to a steel pin; thence

South 85° 59' 40" East 434.76 feet to a steel pin; thence

South 2° 0' 45" West 726.21 feet to the Real Point of Beginning.

The above described tract of land contains 1.0 acres more or less.

**BEFORE THE BOARD OF DIRECTORS OF THE  
STAR SEWER AND WATER DISTRICT  
ADA COUNTY, IDAHO**

IN THE MATTER OF THE INCLUSION )  
INTO THE STAR SEWER AND WATER )  
DISTRICT CERTAIN REAL PROPERTY )  
GENERALLY KNOWN AS THE )  
YOUNGMAN PROPERTY )  
THAT IS MORE PARTICULARLY )  
DESCRIBED IN ATTACHMENT A )  
\_\_\_\_\_ )

CONDITIONS OF  
ANNEXATION

WHEREAS, Petitioner's filed a Petition for the Inclusion of Certain Real Property in the Star Sewer and Water District on April 15, 2015; and

WHEREAS, the Star Sewer and Water District ("District") held a public hearing on October 23, 2015, pursuant to Idaho Code Section 42-3218; and

WHEREAS, the Board of Directors ("Board") of the District has determined that it is in the best interest of the District to annex the petitioned property into the District subject to certain conditions.

NOW THEREFORE, THE STAR SEWER AND WATER DISTRICT BOARD OF DIRECTORS HEREBY MAKES THE FOLLOWING CONDITIONS OF ANNEXATION:

1. The Petitioner shall be required to construct and pay for all sewer lines, sewer service lines, all water lines, water service lines, water meter facilities, fire hydrants, valves, and all other water and sewer appurtenances including road repairs necessary to extend sewer collection lines and water lines from the District's existing collection lines and water system to and throughout the Petitioner's property in accordance with the District water and sewer standards and specifications. The Petitioner shall employ an engineer, registered in the State of Idaho, to design and inspect their water and sewer facilities in accordance with DEQ and District standards. The Petitioner's engineer or District Foreman shall provide full time inspection during major construction activities and Petitioner's engineer shall submit a certification letter to the

District certifying that the water and sewer facilities were installed in accordance with District and DEQ standards and specifications.

2. The Sewer Interceptor Line Master Plan calls for the need to construct interceptor sewer lines through the Petitioner's property at various locations. The Petitioner shall, therefore, provide a platted road or a dedicated easement through the Petitioner's property following a jointly agreed upon alignment at no cost to the District. These required easements or road right-of-ways shall provide a sixty (60) foot temporary construction easement and a twenty (20) foot permanent maintenance easement. These sewer lines may be constructed either by the District or the Petitioner. If the District elects to have the Petitioner responsible for the construction of these major interceptor lines, they shall do so under the following conditions. When the Petitioner is responsible for constructing the major interceptor lines, the Petitioner shall construct these major interceptor lines at the appropriate line and grade as called for on the District Sewer Interceptor Line Master Plan and as provided by the District. In this case the Petitioner shall be responsible to pay for all costs associated with design, construction and construction supervision and inspection for all sewer interceptor lines.

If the District elects to be responsible for the construction of the major interceptor lines at the appropriate line and grade as called for in the Master Plan, the Petitioner shall be granted the right to make sewer service line and/or sewer collection line connections to this interceptor line where and as needed in accordance with the District standards and construction time frames. The Petitioner shall be required to reimburse the District all expenses relating to all wastewater system improvements that the District has constructed on the Petitioner's final platted property prior to final plat approval of the Petitioner's proposed development.

3. Where the District's Culinary Water Master Plan calls for the need to construct major water transmission line facilities through the Petitioner's property, the Petitioner shall be required to construct and install, at the Petitioner's expense, these water transmission facilities including water lines, valves, and fire hydrants in accordance with the District Culinary Water Master Plan. Petitioner may be required at the District's discretion to loop waterlines in Petitioner's development with existing waterlines if existing waterlines are within 500 feet of Petitioner's property. The District will make

reasonable efforts to assure that the Master Plan transmission lines are located within the Petitioner's subdivision platted streets so that they can be used for culinary water service. Where the transmission lines cannot be placed within a platted street the Petitioner shall provide a fifty (50) foot temporary construction easement and a twenty (20) foot permanent easement for all such water transmission lines at no additional cost to the District.

If the District elects to be responsible for the construction of the major water transmission line facilities as called for in the District's water Master Plan, the Petitioner shall be granted the right to make service line connections and/or water line connections to this water transmission line where and as needed in accordance with the District's standards and construction time frames. The Petitioner shall be required to reimburse the District all expenses relating to all water system improvements that the District has constructed on the Petitioner's final platted property prior to final plat approval of the Petitioner's proposed development.

4. The Petitioner shall be required to pay Service Availability Fees for both water and sewer for each equivalent residential lot or equivalent dwelling unit prior to constructing each home or dwelling unit. These fees represent the cost to the District of providing sewer facilities and water supply facilities in the proper location and of sufficient size and capacity to provide future water and sewer service. The Sewer Service Availability Fee shall be paid at the current rate as set by the Board of the Directors. This rate at this time for sewer service availability fee is \$3,500.00 per equivalent dwelling unit and the water service availability fee is \$1,000.00 per equivalent dwelling unit. These service availability fees are set by the District periodically and will remain the same for all equivalent dwelling units until the board adjusts such service availability fees by resolution.

5. The Petitioner shall be responsible to reimburse the District for all costs associated with legal, engineering and administrative fees associated with the annexation and the construction of new sewer and water facilities within the Petitioner's property. These development and annexation fees shall include time required for the District Engineer to review the water and sewer system plans and specifications and additional time necessary for the District to assure that the Petitioner is providing adequate

inspection and certification of the construction of all water and sewer facilities. Once the District or District Engineer has accepted the construction and Petitioner certification of the water and sewer facilities, the District will assume maintenance responsibilities of the water and sewer facilities excluding service lines.

6. The Petitioner shall have his engineer design all water and sewer facilities using the new USGS horizontal and control datum. The USGS datum points are based horizontally on the North American Datum of 1983 (NAD 83) and vertically on the North American Vertical Datum of 1988 (NAVD 88). The location and identification number of each control point is available through the USGS. The Star control point has been labeled point number 154 and is located on Star Road just north of State Highway 44. The Petitioner shall be required to verify the xyz coordinates of this point and submit to the District Engineer prior to commencing survey and control work for his development.

7. The Petitioner shall be required to submit to the District a set of as-built plans on Mylar as well as on CD-ROM or disc in AutoCAD format and PDF format. The Petitioner shall provide development basemap files with as-built conditions including parcel lines, easements, sewer, water, storm, pressure irrigation, service lines, and other utilities in GIS format (shapefile) consistent with the District's GIS system. The CD-ROM shall contain all subdivision coordinates and shall also present, in separate overlays, all separate utilities such as sanitary sewer, storm sewer, water lines, irrigation lines, and all other utilities that are available to the Petitioner's engineer, such as gas lines, power lines, cable T.V. lines, etc. In the event the District adopts GIS Standards, the Petitioner agrees to provide record drawing information in accordance with these standards for all phases of the Petitioner's development that are developed after these standards are adopted. These record drawings shall also contain all xyz coordinates for all manholes, gate valves, fire hydrants, water meters, water blowoff valves, and the end of each sanitary service line adjacent to the property lines. An xyz coordinate for each storm sewer, catch basin, and all storm sewer manholes shall also be provided on the as-built data. In summary these record drawings shall contain all subdivision information on separate overlays for property lines, street improvements, water lines, sewer lines, storm sewer lines, irrigation lines, sanitary sewer service lines, water service lines, other utility lines, sidewalks, etc. This record drawing information shall be submitted within 90 days

of the completion of construction of each final platted phase of the Petitioner's development. The Petitioner agrees to pay the District for collecting this as-built information, if the Petitioner has not submitted the required record drawing information within 90 days after the completion of construction of each final platted phase of his development. Neither sewer or water permits will be issued until as-built information has been submitted.

8. The Petitioner shall, at his expense, have all sewer collection lines inspected by an approved closed circuit television camera with video taping (T.V. inspection) after construction of the sewer lines, sewer service lines, and placement and compaction of the road "pit run" subbase and prior to the placement of the street pavement. If any portion or segment of the sewer lines is found to be in noncompliance with the specifications, the Petitioner shall be responsible to excavate and make necessary repairs to the sewer lines as directed by the District Engineer. The Petitioner shall then be responsible to re-T.V. inspect these segments of line that have been repaired. The Petitioner shall provide the District an 18 month warranty guarantee for all sewer and water facilities constructed by the Petitioner. Within 18 month warranty period, and when the water table is high, the District will re-T.V. inspect all of the sewer lines constructed by the Petitioner. The Petitioner shall be required to pay the District the cost to clean and re-T.V. all sewer lines constructed by the Petitioner. This cost shall be calculated at the time the T.V. inspection is complete and shall not be less than the actual cost incurred by the District. The District reserves the right to suspend issuance of sewer and/or water permits if the Petitioner fails to comply with this section. During this re-T.V. inspection, the Petitioner shall have a representative present during this re-T.V. inspection. Should there be evidence of continued or additional noncompliance which, in the opinion of the District Engineer, warrants replacement or repair, the Petitioner shall, upon order of the engineer, correct these defects as required under the contractor's 18 month warranty guarantee. The Petitioner shall then be responsible to re-T.V. inspect the areas that have been repaired to verify, through additional television inspection, that the sewer lines have been corrected.

9. Additional Conditions:

A. The Petitioner shall be required to pay a Sewer Interceptor Line Fee for all equivalent residential lots or proposed dwellings units, including commercial units approved for sewer connections to be located on Petitioner's property within 120 days from the date of the issuance of the will-serve letter issued on behalf of the District to DEQ regarding each phase of the Petitioner's development. This fee represents the Petitioner's share of the District's cost for constructing interceptor facilities in the appropriate location and of sufficient size and capacity to provide sewer service for the Petitioner's property. Such Sewer Interceptor Line Fee shall be \$1,200.00 for each equivalent residential lot or equivalent dwelling unit. The District Sewer Interceptor Line Fee may be adjusted from time to time by board action to cover increases in costs over time. Sewer and/or water connections may be withheld until the Petitioner's have paid all fees in accordance with these conditions.

B. Petitioner agrees to construct sewer system interceptor lines to and through the proposed development as outlined in the District's Sewer Master Plan or as required by the District. These interceptor lines shall be constructed in such location and at the grades required by the District's sewer interceptor line master plan. Among other interceptor lines, the Petitioner agrees to construct a 10-inch sewer interceptor generally from south to the north edge of Petitioner's property. The Petitioner also agrees to provide sewer stubs to adjacent properties to the north, south, east, and west as required by the District.

The Petitioner further agrees that he will receive written approval from the District Engineer of all sewer facilities before construction.

C. The Petitioner understands that all subdivisions will compete for sewer and water permits on a first come first serve basis. The District has the authority to add additional restrictions on permit.

D. The Petitioner agrees that he will be responsible for extending water service from the District's existing potable water system to and throughout his property with pipe diameters of sufficient size to

provide adequate potable water service and fire protection to the entire subdivision. These water lines shall be extended in accordance with the District's water system Master Plan. The Petitioner will be required to construct an 8-inch water line from the south to the north edge of the Petitioner's property. The Petitioner also agrees to provide water stubs to adjacent properties to the north, south, east, and west for future development as required by the District. The Petitioner further agrees that he will receive written approval from the District Engineer for all water facilities before construction.

The Petitioner further agrees to construct any improvements necessary to satisfy the Star Fire Department fire protection requirements.

E. The Petitioner will be required to post a financial guarantee of performance in the amount of \$1,000 per equivalent residential lot or proposed dwellings unit, including commercial units prior to issuance of a "Will Serve" for each phase of the Petitioner's project. This performance guarantee is to ensure that the District can ensure the integrity of its water and wastewater systems in the event the Petitioner defaults in any way during the construction of the project. The performance guarantee can be a cash deposit, certified check, negotiable bond, an irrevocable bank letter of credit, or other financial guarantee approved by the District. The financial guarantee must remain valid and in force until the District accepts all of the proposed Petitioner's sewer and water improvements.

10. If payments of all fees are not paid in accordance with these conditions, the District reserves the right to deny all sewer and water connection permits until these conditions has been met. The Petitioner also agrees to pay to the District a monthly penalty equivalent to 1.5% of the amount due for each month that payment is overdue until all fees and penalties are fully paid.

11. The Petitioner agrees to inform all buyers of the Petitioner's platted lots of these conditions of this annexation, which includes but are not limited to the agreement requiring the payment of the Water and Sewer Service Availability Fees prior to

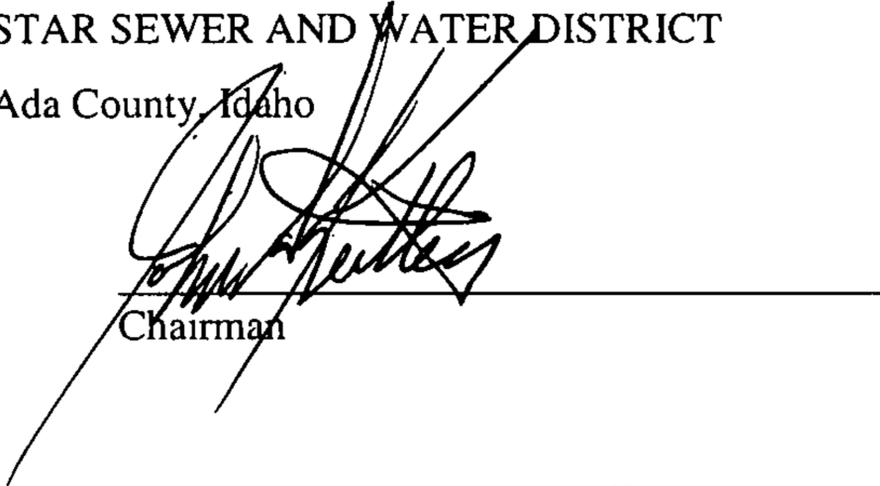

constructing any dwelling units (including apartments, modular homes, mobile homes, houses, etc.)

12. Within 10 days after the terms and conditions are announced at the hearing before the Board, the majority of the Petitioners may withdraw their petitions and no further proceedings shall hereafter be had by the Board upon such Petition.

13. If after eighteen months the applicant has failed to begin construction on sewer and water lines and/or comply with these Conditions of Annexation, the District may at their option, begin proceedings to de-annex the property from the Star Sewer and Water District.

DATED this 23<sup>rd</sup> day of October, 2015.
