

AGO455
AG-INQUIRY

FUNCTION OF ONLINE PROGRAM:

This program is used to view data in the Rural Investment Land file.

| FIELD | LENGTH | DECIMAL POSITIONS | ALPHA (A) or NUMERIC (N) |
|------------|--------|----------------------|-----------------------------|
| Parcel Key | 15 | | A |

EDITS AND EDIT CAUSES:

01 Parcel Not Found

The parcel key entered is not in the Parcel Master file.

02 No Land Inventory

The parcel key entered has no rural investment land inventory in the Rural Investment Land file.

03 No Adjustments

No adjustments are found on the parcel after keying F1.

04 Update Invalid

An update is not permitted on a parcel key with no rural investment inventory. (This subsystem has one program to do the initial data entry on a parcel, and another program to perform updates to that data. You cannot go into F11 – update – if the initial entry has not been done. Use F10 to do the initial entry.)

COMMAND KEY OPTIONS:

- F1 - Land Adjustments Screen
- F2 - Return to Screen 1
- F7 - End of Job
- F10 - Data Entry
- F11 - Update

SPECIAL CONSIDERATIONS:**SCREEN 1:**

An asterisk (*) will signify those land inventory records having adjustments. To view those records use F1, otherwise key in another parcel key. The message "More Inventory" will be displayed on the screen if more than 12 inventory lines are needed. Hit enter to view additional lines of inventory.

SCREEN 2:

Screen 2 will display only those land inventory records that have adjustments. The first adjustment is displayed on the screen. If additional adjustments are present, hit enter. Additional adjustments will be displayed until "Last Adjustment" is displayed on the screen. To inquire on a different parcel, key in the number and hit enter. The program will return to screen 1 automatically.
