

PVB012
PV – EXEMPTIONS AND SPECIALS FOR PROVAL PARCELS ROLLED TO PM

PROGRAM FUNCTION:

This program lists values and exemptions for all parcels involved in the ProVal upload to Parcel Master (PM).

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

01 Printer Prompts

COMMENTS:

This program will not list any values or exemptions for parcels that do not have a corresponding parcel number in PV8VALUE or PV7VALUE file.

OUTPUT SUMMARY (or NA):

The report has two sections.

HOMEOWNERS SECTION

The report provides totals by category for market value, exemption amount, disallowed market value, disallowed exemption, total market, and total exemption amount. A parcel count is provided for "Total Parcels Allowed", "Total Parcels Disallowed", and "Total Parcels."

CIRCUIT BREAKER SECTION

The report provides totals by category for market value, schedule amount totals, parcel counts. A parcel count is provided for "Total Disallowed Count".

SPECIAL CONSIDERATIONS:

This report is used during the ProVal Upload Checklist
