NAVIGATING CHANGE

Strategic Plan 2020 - 2024
MESSAGE FROM THE COMMISSIONERS

As it has repeatedly throughout its history, the Idaho State Tax Commission overcame historic challenges to enter fiscal year 2020 better positioned and more committed than ever to fulfilling our vision, values and mission. The skilled, hard-working people of the Tax Commission are proud of their contributions to our state government and dedicated to providing unmatched customer service to every Idaho taxpayer.

Our plans for the coming year feature improving internal processes to capture more efficiencies, as well as increasing our use of state-of-the-art GenTax® technology to keep up with Idaho’s red-hot population and economic growth. At the same time, we’ll continue enhancing taxpayers’ experience with outreach and education aimed at encouraging voluntary compliance with Idaho’s tax laws and earning public confidence.

We also will continue upgrading our Taxpayer Access Point (TAP) system to make it easier for customers to securely conduct more types of tax transactions online. And we’ll get a better idea of how we’re doing as an agency through annual stakeholder surveys to help identify areas where we can improve.

FY2020 also finally brings the long-awaited move of the Tax Commission’s Boise office from the Park Boulevard Plaza near downtown to the former Hewlett-Packard campus along Chinden Boulevard on Boise’s west side. Over 450 Tax Commission personnel will be among the first state employees based in the newly renovated complex that we’ll call home for years to come.

The Tax Commission’s goals for the coming year and beyond focus on empowering great public servants to keep improving what they do, demonstrating strong financial stewardship over the public’s money, and promoting the kind of efficiency in administration of Idaho tax laws that inspires stakeholder support.
Chairman Tom Harris, Commissioner Tom Katsilometes, Commissioner Elliot Werk, Commissioner Janet Moyle

EXTERNAL FACTORS

POPULATION GROWTH
Maintaining current department service levels with existing resources will continue to be a challenge as we experience high population growth in select areas of the state. Idaho is becoming a destination location for retirees. Continued growth in the Canyon County area will likely result in the need to open an additional field office within the next 5 years.

WORKFORCE TRANSITIONS
Our workforce is aging, increasing the number of potential retirees and posing a continual challenge in transition planning and knowledge transfer. Younger workers typically have shorter lengths of employment, affecting staff turnover.

ELECTRONIC SERVICES AND EXPANDED USE OF MOBILE DEVICES
The need to automate manual processes will continue to increase. Customers will want improved access to technology to meet their expectations of anytime, anywhere, any device. In addition, taxpayers expect to interact with us using current technology that is easy and intuitive.

COMPETITION FOR EMPLOYEES WITH ESSENTIAL SKILLS
As the economy improves and our salary ranges for critical skills fall further behind market rates, we are experiencing difficulties in attracting and retaining qualified people.

COMMUNICATION AND EDUCATION WITH CHANGING TECHNOLOGY
Technological advancements in our tax processing system will require ongoing education and communication to staff and taxpayers.

IMPENDING TAX COMMISSION MOVE
The relocation of our Boise office will have an impact on the agency.
Addendum to Agency Strategic Plans: Adoption of the NIST Cybersecurity Framework and Implementation of CIS Critical Security Controls 1 – 5.

As a technology customer of the Office of Information Technology Services (ITS) in the Governor’s Office, we are using the cybersecurity systems and technical expertise in ITS to fulfill requirements related to Executive Order 2017-02. Staff from ITS briefed the NIST Core Framework, CIS Controls 1-5, and their plan for adoption of the NIST Cybersecurity Framework. We participate in DHR and ITS administered cybersecurity training, as awareness is a critical component of an effective cybersecurity program. As briefed by ITS staff, implementation of the CIS Controls 1-5 will be their responsibility for the systems they operate and, as technological tools applied to the computer systems, largely invisible to us as a customer. ITS, working through the multi-agency Incident Response Task Force, has developed an Incident Response Program in support of our agency.

Red Tape Reduction Act Compliance

The Idaho State Tax Commission has an active rules review process and strives to maintain only essential and effective rules. The agency has designated a Rules Review Officer to oversee this effort on a continuous basis. Results so far are:

Number of rules cut: 37 plus 2 rules with subsections removed.

Number of pages cut: 14

Word reduction count: 6,908

Two entire chapters eliminated.
