

DFB010
DF-PRINT DEFERRED TAX BILLS

PROGRAM FUNCTION:

This program prints deferred tax bills.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

- 01 Do you want to print mailing labels? (Y or N)
- 02 Sort by:
 - 1 - parcel
 - 2 - name (uses the Taxmaster name)
 - 3 - ownership code
- 03 Due and payable on? (MMDDYYYY)
- 04 Beginning billing date (MMDDYYYY)
- 05 Ending billing date (MMDDYYYY)
- 06 Enter tax year (YYYY)
- 07 Tax month (00 = All or 01-12)
- 08 Limits

COMMENTS:

The deferred tax generated between the beginning date and the ending date will be the only notices that print.

The tax bills (Report1) print on 11" x 8-1/2" (summary sheet) paper at 6 lines per inch (LPI). The labels (Report2) print on 1" labels at 8 LPI.

OUTPUT SUMMARY (or NA):

Each tax bill contains the name/address/legal, parcel number, tax year, levy year, tax month, code area, and date of designation. It also shows the detail for calculations, which includes productivity value, bare land/yield value, number of acres, years designated, levy, gross deferred tax, credit for yield tax paid, and total tax due. The Treasurer's return address is also printed. There is an option to print 1" labels with name and address.

SPECIAL CONSIDERATIONS:

The Treasurer's return address is pulled from record #1 of MSO005 (Head File). Check this file before running DFB010 to ensure that the return address is correct.
