

DFB011  
DF-DEFERRED TAX ROLLPROGRAM FUNCTION:

This program lists deferred tax records by parcel number, name, bank code, FLBC, or ownership code.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

- 01 Enter the tax year (YYYY)
- 02 Include all transaction information? (Y or N)
- 03 Print market value breakdown? (Y or N)
- 04 Select (X) the sorting sequence you want:
  - By parcel
  - By name
  - By ownership code/parcel
  - By ownership code/name
- 05 If you want a specific name, enter the name:  
(10 max)
- 06 If you want a specific ownership code, enter the ownership code:  
(10 max)
- 07 Limits
- 08 Printer Prompts

COMMENTS:

To obtain only parcels listed under an exact name, key in that name exactly as it appears on the parcel(s). For example, keying in: STONE, JACK A. will obtain only those parcels listed under exactly that name.

To obtain all the parcels listed under a given surname (for example, all those with the last name of Stone), simply key in that name, in this case: STONE.

OUTPUT SUMMARY (or NA):

The report lists the parcel key, tax year, name, address, legal; market value, homeowner, hardship, and net market value. The report also lists tax/specials (number and name), and net tax charge, tax month, compliance number, bill number, tax code, bank/flbc/ownership code, who the bill was originally mailed to, and up to ten delinquent years.

If prompt #02 was answered 'Y', payments, cancellations, and reversals will also print. The report lists the remarks, payor, post date, batch number, transaction number, pay code, whether paid under protest, tax, late charge, interest, and cost.

Totals and prompt responses will print at the end of the report.

SPECIAL CONSIDERATIONS:

None
