

PVB091  
PV – CLEAR SUBSYSTEMS OF PARCELS ROLLED FROM PROVAL

PROGRAM FUNCTION:

This program deletes parcels from the land (LD), rural investment (RI), manufactured housing (MH), and residential characteristics (RC) subsystems. All records rolled from ProVal to the AS/400 will be removed from the subsystems and placed in a history file.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

This program is embedded in PVB003.

COMMENTS:

None

OUTPUT SUMMARY (or NA):

The program will spool the following report:

**Remove ProVal Parcels From RC, MH, and LD subsystems**

This report lists the number of records removed from the AS/400 subsystems for each parcel uploaded from ProVal. The report also lists the total records removed from each sub-system (LD, RI, MH, and RC).
