

YDB007
YD-CREATE YIELD TAX RECORDS

PROGRAM FUNCTION:

This program is used to create yield tax records.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

- 01 Printer prompts
 - 02 UADFILE should be backed up just prior to executing YDB007.
Have you backed up UADFILE? (Y or N)
 - 03 Beginning compliance number (XXXXXX)
 - 04 Ending compliance number (XXXXXX)
 - 05 Harvest year (YYYY)
 - 06 Beginning month (01 or 07)
 - 07 Ending month (06 or 12)
 - 08 How do you want to sort? (Choose one with an 'X')
- Ownership code/compliance #
 - Ownership code/parcel #
 - Ownership code/alpha
 - Compliance #/alpha
 - Compliance #/parcel #
 - Alpha
 - Parcel #

COMMENTS:

If you answer 'N' to prompt #01, the program is cancelled.

Prompts #06 and #07 should be answered 01 and 06 for the December billing, 07 and 12 for the June billing.

OUTPUT SUMMARY (or N/A):

The report lists the compliance number, parcel key, code area, last in care of name, volume harvested, taxable harvest value, yield tax (3%), yield tax amount, total volume harvested, total yield tax, count, and prompt responses.

The last page of the report lists the yield tax charge by district with county fund.

If a deferred tax record for the same year exists (which might indicate that they should not be taxed for yield) the edit "**** DF Taxes Exist****" will print.

SPECIAL CONSIDERATIONS:

Use YDB010 to print the bills.
