

YDB423  
YD-MILL DATA EDIT

PROGRAM FUNCTION:

This program will edit the compliance file, mill file and the Parcel Master file for various problems that need to be resolved prior to printing bills.

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

- 01 Enter beginning date (MMYYYY)
- 02 Enter ending date (MMYYYY)
- 03 Do you want to list compliances with no mill records for this billing period? (Y or N)
- 04 Printer prompts

COMMENTS:

None

OUTPUT SUMMARY:

The parcel number, mill number, compliance number, period from and to, and any of the following error messages:

- 1. Compliance number is invalid
- 2. Compliance has expired
- 3. Mill number is invalid
- 4. Parcel number is invalid
- 5. Parcel number is not active
- 6. No mill records for this billing  
(This edit will only print if prompt #03 is answered 'Y'.)
