REGIONAL TRAINING ANNOUNCEMENT

Creating Map Layouts in Arc 9.3

Description: This hands-on, two-day workshop teaches beginning mappers to design map layouts and create map templates in ArcGIS 9.3 software. You'll learn to add map components, including legends, map view, scale, county logo, neatlines, and more. You'll also learn to create templates from layouts designed during this workshop to create county maps on which you can plot parcels. You'll join CAMA information (ProVal/AS400 data) and GIS map data to create maps with labels helpful to the appraisers. Topics include:

- Scaling
- Labeling
- Annotation
- Cartography principles
