

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

AFTER running FPB360 (Step 1 in Forest Protection Checklist – CL12.):

If the report from FPB360 is blank, it means that there were no changes to report. If this is the case, you do not need to go through the download process. However, you will need to E-Mail Dianne Lanuza at dlanuza@idl.idaho.gov and let her know that there were no changes to report. (Or you can call her at 208-334-0251.) If the FPB360 report has information on it, then continue with this download procedure.

If you are using the client access workstation function then this will be relevant, otherwise if you are using some other terminal emulation and file transfer function contact your IS support staff or the Technical Support Bureau for the specific requirements to affect a download.

There is one file you will need to transfer from the AS/400 to your personal computer (PC). The file is the Department of Land's Update file named "UADXFIRE" that contains records reflecting parcels that have been added, changed, or deleted. This file is in the AS/400 Library called "UADFILE". Once you have downloaded this file to your PC you then will be able to either copy it to a diskette for mailing to the Department of Lands or attaching it to an outgoing E-Mail to the Department of Lands.

STEP #1

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP #2

NOTE: Steps 1 and 2 can be combined into a single step:

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP #3

From the Data Transfer window, click on the "Properties" button.

STEP #4

On the Conversions tab, select "Convert CCSID 65535"

And then click "OK"

STEP #7

File Details

Output client file

File type: **Text (.txt)**

File action: **Overwrite existing file**

Translate system data to: UTF-8

Advanced

Client file description

☐ Save client file description

File name: Browse

OK Cancel

Choose "Text (.txt)" from the list.

Do NOT use "Tab Delimited Text (.txt)".

Choose "Overwrite existing file".

Click on the "Save transfer description" box to unselect it (remove the check mark).

Then click "OK"

Key in the path where you want the fire protection file to be stored on your PC.

Example:
C:\xxxxxxxxxxACD.txt

Replace "xxxxxxxxxx" with your County name.

The Browse button should be able to help you locate where on your PC to save this file.

Click on Start Transfer

STEP #8

Data Transfer

File View Actions Help

10.30.131.13_A.dtfx

IBM i

System: 10.30.131.13

File name: UADFILE/UADXFIRE

Data Options

File

Output device: File

Name: P:\AS400\Forest Protection\ElmoreACD.txt

Format Options

Start Transfer

FYI: we ask you to key in ACD as part of the path name. This stands for AddChangeDelete.

STEP #9

When the transfer is complete, this window will appear and tell you how many rows (or records) were transferred.

Click "OK". Your file transfer is complete.

STEP #10

Click 'X' to close the screen

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP #11

After you have used this procedure to download the file to your PC, you will now be ready to send the file to the Department of Lands. To do this, follow the next steps.

FIRE PROTECTION UPDATE

Procedure To Download FP File and Send To The Dept. Of Lands

STEP 12:

Open up Internet Explorer or whichever Internet Browser you have and go to the Dept. of Lands Private Fire County Login website.

https://apps.idl.idaho.gov/PrivateFire_County/PF_Login.aspx

Enter your User Name and Password
NOTE: These are CASE Sensitive.
Then click on the Log In button.

STEP 13:

Once logged in, click on the
“Upload 360 Report” option.

STEP 17:

Please send the FPB360 report to your LOCAL IDL office (as indicated in the letter from Dianne Lanuza). You can download this report from the AS400 to a PDF file on your PC and then email it to your Fire Warden. There are instructions on how to do this on the Tax Commission website. You can also call Technical Support for any help with this process.
