2025 Information Return 1099 E-Filing Guide

Thresholds

Idaho requires electronic filing of W-2 and 1099 forms for employers who are required by the Internal Revenue Service (IRS) to file electronically. Per the IRS, if you have 10 or more information returns, you must file them electronically. If you are required by the IRS but don't file electronically with Idaho, we will not process the return and we will charge you a penalty.

Filing Form 1099

Form 967 and W-2s are due by January 31 and 1099s are due by February 28. If you have 1099s to file, you have two options:

1. **File all forms (967, W-2s, and 1099s) by January 31.**
 - a. Following this schedule can help you reconcile your withholding since you'll be working with all your records at once.
 - b. You can file online using Taxpayer Access Point (TAP) at tax.idaho.gov/gotoTAP or you can file by paper.
2. **File your 967 and W-2s by January 31, and file your 1099s by February 28.**
 - a. Make sure to include the amount of Idaho withholding from the 1099s along with the withholding from the W-2s in the "Total Idaho Tax Withheld" amount reported on the Form 967.
 - b. Also, include the number of 1099s with Idaho withholding on the Form 967.

If you choose the 2nd option, follow these instructions when you file your e-file your 1099s in February through TAP:

1. Report in the RV record (the electronic Form 967) only the withholding amounts from the 1099s included in the file.

Specifications

- Idaho follows the Internal Revenue Service (IRS) specifications outlined in Publication 1220 for filing information returns. You can find more information on the IRS website at www.irs.gov.
- Idaho specifications are in addition to IRS Publication 1220.
- Idaho has modified the end of the Payer C Record for reporting the RV Record, Idaho's electronic Form 967, *Idaho Annual Withholding Report*.
- Use numeric postal code 16 in B records to ensure they're identified as Idaho records.

Requirements

- Employers must provide current year information returns to employees by January 31.
- The due date for filing information returns that contain Idaho withholding with the Idaho State Tax Commission is February 28, but the Form 967, *Idaho Annual Withholding Report*, is due January 31.

E-Filing

Idaho accepts only 1099 files meeting the IRS specifications. No other 1099 e-filing options are available on our website.

- E-file your information returns on our secure TAP site at tax.idaho.gov/gotoTAP.
- If you file information returns that contain Idaho withholding, you must include the electronic version of Form 967 in your file. Please see instructions for the RV record on page 7.
- If you participate in the Combined Federal/State Filing Program, don't e-file information returns through TAP or by paper as that will result in duplicate filings. Only file information returns once. If any of the 1099s you filed through the Combined Federal/State Filing Program contain Idaho withholding, you'll need to file Form 967 by January 31, either electronically or by paper. Be sure to check the box indicating the information returns were submitted through Combined Federal/State filing.
- If you file information returns containing Idaho withholding after the due date, penalty and interest will be charged on the amount of tax due from the Form 967 due date until the date paid.
 - The minimum penalty is \$10 and the maximum penalty is 25% of the tax due.
 - To calculate interest, multiply the amount of tax due by the daily interest rate, and then multiply the result by the number of days late. To get the daily interest rate, go to tax.idaho.gov/interest.

- If you submit your information returns containing Idaho withholding after the 1099 due date, a penalty of \$2 can also be applied to each information return for each full or partial month overdue. The minimum penalty is \$10 and the maximum penalty is \$2,000.
- An active EIN (Employer Identification Number) and Idaho withholding account number combination is required to e-file information returns through TAP at tax.idaho.gov/gotoTAP.
- You can test your information return files at tax.idaho.gov/gotoTAP, before submitting them. Upload your test file, and the site will either return a specific error message or a confirmation screen indicating your format is correct and your file is ready for upload. Files are only submitted to the Tax Commission when you click the “Submit” button. For error correction help, call us at (208) 334-7660 in the Boise area or toll free at (800) 972-7660.
- This publication contains filing procedures for 2025 information returns only. You can only e-file 2025 information returns using the current year layout. When filing previous years, use the record layout for that year.

For questions not covered in this publication or for more information about e-filing, call us at (208) 334-7660 in the Boise area or toll free at (800) 972-7660.

Combined Federal/State Filing Program for Information Returns

- Idaho participates in and encourages usage of the 1099 Combined Federal/State Filing Program. This program allows the payer or its agent to file information returns with the federal government and authorizes the release of this information to the applicable states involved. If your information returns filed through this program have Idaho withholding, you must complete and file Form 967 with the Idaho State Tax Commission by January 31. You can either e-file using TAP at tax.idaho.gov/gotoTAP or file by paper.

Be sure to report the number of 1099s with Idaho withholding and check the Combined Federal/State Filing box on the paper form as displayed below.

Common Problems

1. Invalid line length:

- IRS specifications for line length state that each record within the file must be 748 characters in length and allow position 749 and 750 for end-of-line markers. Idaho requires an end-of-line marker (Carriage Return/Line Feed) in position 749. Leave position 750 available for a possible control character added by the file creation software to prevent and/or avoid invalid line length errors.

2. RV Record errors:

- The RV Record is a summary record for the filing and begins at position 508 of the Payer C Record. Only populate your RV Record with information from the filing. Review the RV Record Layout (pages 7-8) for specific field specifications. If errors are detected when you're filing, our site will provide specific error messages to help with correcting the file. If you need further error correction help, please call us at (208) 334-7660 in the Boise area or toll free at (800) 972-7660.

3. Most common RV Record errors:

- The filing cycle/frequency (RV Position 532) doesn't match our records.

M = Monthly, B = Semimonthly, Q = Quarterly, Y = Annual

- Withholding payments made during the year is blank.
If RV positions 561-571 are blank or zero filled, the file is reporting that no withholding payments were made during the year. To correct this error, enter the total withholding payments made during the year in the correct RV positions.
- Amount fields don't include the placeholder for cents.
All payment/amount fields must be rounded to the nearest whole dollar and should be followed by "00" to represent a placeholder for cents. Example: Withholding of \$7,958.21 should appear as: "00000795800".
