

2009 Personal Property Taxes and Industrial Property Taxes

January 20, 2010

The attached tables provide detailed information concerning personal property taxes by county and by economic sector. Additional information and breakdowns are found for various types of industrial property. Information on these tables is summarized in Charts I and II in this cover memo.

Chart I: Personal Property Taxes by Sector

Personal Property Type	2009 Market Value (\$Millions)	2009 Property Tax (\$Thousands)
Electricity production and related products	4.3	44
Seed, grain processing or storage, and dairy	145.0	1,769
Technology related	541.4	8,259
Mining, chemicals, and fertilizer	492.7	4,313
Wood processing	462.4	4,238
Food Processing	983.7	12,999
Operating Property	2,813.2	29,261
Other industrial	354.9	4,287
Misc. non-industrial personal property	3,793.0	49,277
Subtotal	9,590.6	114,447
Undifferentiated personal property tax included in urban renewal increment value	559.0	8,390
Total	10,149.6	122,837

Chart I shows a 5.2% increase in personal property taxes since 2008. Much of this increase went to urban renewal agencies rather than taxing districts. Taxing district shares of personal property taxes increased by 3.4%, while total property taxes increased 1.9% in 2009. Contrary to last year's report, the methodology is the same as in 2008, so the percentage change is comparable. For both year's reports, the following property categories (shown by number and title in the table below), included as personal property prior to 2008, have been removed and are considered to be real property.

51	57	60	61
Commercial or Industrial Improvements on Leased Land	Equities in State Property	Improvements on Railroad Rights of Way	Improvements by Lessee other than Cat. 62
62	65	66	
Improvements on Exempt or Public Land	Manufactured Housing on Exempt Land	Net Profits of Mines	

After adjusting 2007 figures for the category differences, personal property taxes (excluding urban renewal district amounts) had increased 5.1% in 2008 against the backdrop of an 8% increase in total property taxes.

Chart II: Industrial Property Taxes by Sector

Industrial Property Type	2009 Market Value (\$Millions)	2009 Property Tax (\$Thousands)
Electricity production and related products	4.9	53
Seed, grain processing or storage, and dairy	272.7	3,323
Technology related	939.6	14,332
Mining, chemicals, and fertilizer	613.8	5,607
Wood processing	645.1	6,107
Food Processing	1,506.8	20,324
Other Industrial	704.1	8,694
Total*	4,687.0	58,440

*Totals do not add due to rounding

Industrial property values decreased 12.0% in 2009 after increasing 14.4% in 2008. Industrial property taxes decreased 7.1% in 2009.

Chart II (above) includes real and personal property attributed to various industrial sectors. However, this chart includes industrial property within urban renewal areas and does not separate this property into base and increment shares. This means that an indeterminate amount of the \$62.9 million in industrial property taxes will be allocated to urban renewal districts. The data in Chart II does not include operating property.
