The Census 2010 population numbers were not discovered by us until April 2012, the release date was July 2011.

As outlined in IADAPA Rule 995 I corrected the population and recomputed the distribution for each of the first 3 quarters of the State's FY2012. These adjustments were made to the 4th quarters distribution, as you can see the City of Clayton did not have enough to cover the entire adjustment that was made so it was decided to transfer the negative amount from the City's Revenue Sharing amount and add it to the County's Revenue Sharing amount so the county would not be short of funds when paying the remaining cities their sales tax revenue.

The Census 2010 population numbers were not discovered by us until April 2012, the release date was July 2011.

As outlined in IADAPA Rule 995 I corrected the population and recomputed the distribution for each of the first 3 quarters of the State's FY2012.

These adjustments were made to the 4th quarters distribution, as you can see the City of Warm River did not have enough to cover the entire adjustment that was made so it was decided to transfer the negative amount from the City's Revenue Sharing amount and add it to the County's Revenue Sharing amount so the county would not be short of funds when paying the remaining cities their sales tax revenue.

Note: Calculations may not agree due to rounding.

The Census 2010 population numbers were not discovered by us until April 2012, the release date was July 2011.

As outlined in IADAPA Rule 995 I corrected the population and recomputed the distribution for each of the first 3 quarters of the State's FY2012.

These adjustments were made to the 4th quarters distribution, as you can see the City of Statelin did not have enough to cover the entire adjustment that was made so it was decided to transfer the negative amount from the City's Revenue Sharing amount and add it to the County's Revenue Sharing amount so the county would not be short of funds when paying the remaining cities their sales tax revenue.
